Republican Ideologies: RNC.org

Unfettered capitalism, gush-up economics: all money flowing up to corporations and the richest 1%. Privatize everything: police/fire/security services, roads/bridges, national parks, air traffic control, postal service, prisons, schools. Invest, trade, and bet on it.

Damage caused by Republicans' "One Big Beautiful Bill":

Cuts to Medicaid, Medicare, Social Security, Veterans Benefits

Closing of Rural Hospitals, Loss of Doctors/Nurses/Health Workers

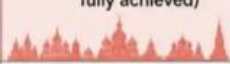

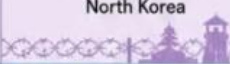

Defunding critical food programs: SNAP, Meals-on-Wheels

Poorest paying more taxes

More money to Military, ICE, Border Patrol, Corporate Polluters

The Economic and Political Systems: 5 Systems; 5 Different Ideas

Snagged from Stephen Colbert's Instagram

KNOW THE DIFFERENCE 5 SYSTEMS. 5 DIFFERENT IDEAS. 			
SYSTEM	WHAT IT IS	KEY FEATURES	EXAMPLES
 SOCIALISM Economic system	The people (or state) collectively own and control the means of production and distribution. 	✓ Collective ownership ✓ Economic equality ✓ Strong role of the state in the economy 	 Cuba Vietnam (Modern Social Democracies have some socialist policies) 
 COMMUNISM Economic & political system	A stateless, classless, moneyless society where all property is commonly owned and resources are shared based on need. 	✓ No private property ✓ No classes ✓ No state (in theory) ✓ "From each according to ability, to each according to need"	 No true examples in history. (The goal of communism hasn't been fully achieved) 
 DEMOCRATIC SOCIALISM Political & economic system	A democratic system that combines capitalism with strong social programs and regulations to promote equality and fairness. 	✓ Private property allowed ✓ Strong social safety net ✓ Universal healthcare, education, paid leave ✓ Wealth redistribution through taxes	 Sweden Norway Denmark Finland 
 AUTHORITARIAN SOCIALISM Political system	A form of socialism where the state controls the economy and political power is concentrated in the hands of a leader or ruling party. 	✓ State ownership ✓ Limited political freedom ✓ Centralized control ✓ Suppression of opposition 	 Soviet Union (Stalin era) China (Under Mao) North Korea 
 CAPITALISM Economic system	An economic system based on private ownership of property and the means of production, driven by profit and competition. 	✓ Private ownership ✓ Free markets ✓ Profit incentive ✓ Limited government intervention 	 United States Canada United Kingdom Australia

Not confused; clear-eyed and focused

This demented Fool,

of THESE greedy soulless buzzards, and a hoard of other corporate crooks,

are building water-guzzling AI data centers across the country, and selling public lands to fossil fuel companies to log, drill, mine, frack, and destroy.

Spineless, heartless **Republicans and some Democrats in Congress** approve and applaud Trump's every self-dealing, people-harming policy.

Trump's **CORRUPT** Supreme Court has granted him almost unlimited power as they (and wives!) pocket millions, all while ...

...allowing said devils to tear it all down. **DOGE** has **gutted** our Govt Agencies. Over 300,000+ federal workers are gone. Christian Nationalists are wrecking the wall between Church and State!

Can I get an Amen?

Not without consent!

Our rights are being repealed. Democracy itself is under siege, the vote is being gerrymandered by Republicans, hi-jacked by Trump's DOJ, and votes are being counted by Elon Musk.

Our black and brown brothers and sisters are losing their voice at the ballot box and worse—being thrown in cages!

Merging our Military with Israel, bombing Iran, Palestine, Lebanon. Abandoning Ukraine, threats to Canada, Greenland, Cuba. Killing people in boats, kidnapping other leaders, declaring himself and family untouchable. **Trump is lawless!**

CoreCivic, GEO Group, Capitalists, Trump, and Republicans.

Trump's ICE goons and **FOR-PROFIT PRIVATE PRISONS** viciously and violently hunt, jail, hold, starve, abuse, **RAPE**, deport, and/or disappear our immigrants and their children.

Trump and Republicans have cut healthcare for millions of Americans; ended food, housing and education programs. Over 1.2 MILLION people have lost their jobs due to AI. Trump's bilking Americans of billions of dollars sending it upward to the top 1%! All while setting the world on fire and building monuments to himself.

And the Press?
Society's watchdog?

FAILING the American people. **OWNED** by Trump greed-hounds. Normalizing Trump and his lies—assisting and **PROFITING** off the destruction of Democracy, for ratings, for money!

Yes, we can!

Dear American Citizen; Dear Voter.

Do you support Donald Trump and his policies? Are you okay with him bilking billions and billions of tax payer dollars for vanity projects—and war?! You okay imprisoning people for profit?! You good with Trump and his oligarch buddies stealing our personal information and tracking our every move? Are you into his cruelty and lawlessness? Is THIS what 77 million Trump-voters voted for?! Because 75 million of us saw ALL of this coming and said NO—with reason!

The National Parks are being decimated. Millions of acres of Public Lands are being leased or sold to the highest bidders to do with what they please: build data centers or extract the resources by clear-cutting, drilling, mining, fracking, and in general, mucking over and up the environment.

In July, with one drug-addled signature, Trump signed away 3 MILLION acres of Bears Ears and Grand Staircase-Escalante National Parks in Utah. 90% of our protected public lands in Utah, GONE.

Billionaires and multi-millionaires are driving these decisions and the DESTRUCTION of the planet. The Rio Grande and Colorado Rivers, Lake Powell, Lake Mead, and the Great Salt Lake herself, and countless more water sources are already next to dry! What will happen to the people once the AI data centers suck up all the water and DESICCATE the water supply? **How will people get water?!** THEY, this privileged class of money-hoarders, brologarches, overt capitalists, non-caring polluters, and climate-crisis deniers don't have to worry about water; their money will ensure they're supplied. But the average Joes in states like Texas and Tennessee, where data centers were quickly and covertly built? Their water (and electric) bills are UP, but the water runs brown—if at all!

You can't drink data!

Of course the people know this, but capitalists, politicians, bureaucrats, and decision makers at federal, regional, and local levels don't care. They're in it for the money. Pay enough and those pesky people-protecting regulations just go away: they're hidden behind Non-Disclosure Agreements specifically to keep the public unaware.

“We see a future where intelligence is a utility, like electricity or water, and people buy it from us on a meter.”

Sam Altman, OpenAI

Over 5,000 data centers across the nation are already syphoning off the FINITE resource of drinking water. What's left is being poisoned and polluted by Trump policies that allow companies to spew their toxic waste into the waterways. Our Earth is literally under attack by rich corporations driving—financing--Trump's planet-and-people

destroying policies. **ALL OF IT IS DRIVEN BY THE GREED OF CAPITALISTS AND BIG BUSINESS—LED BY DONALD TRUMP.**

Republican congressmen/women are 100% on board with whatever Trump does; they've embraced his savagery. They used to hide their disdain for others; now, their cruelty and bigotry are written into the "one big beautiful bill." Tax breaks for the wealthy; poverty for the rest of us. Very few Republicans have had the audacity to stand up to Trump. They watched in 2016 as the Russians gave him a boost with the election. The Mueller Report has confirmed it. Republicans ignored it.

"53% of Americans now believe billionaires are a threat to Democracy."

The country and entire world learned in four years how crazy, demented, and destructive Trump's policies were. Over one million people died of covid on his watch. And we all watched on live tv as he whipped up his crowd and pointed them to the Capital on January 6th, 2021, (episode title: Trump Does a Coup). Still, Republicans followed him in 2023-24 and put him back in office. This time the assist came from Elon Musk. Both Musk and Trump have copped to election interference: Trump at his "victory" rally, and Musk in a Tucker Carlson interview and again on X. Biden's DOJ launched an investigation that determined Kamala Harris had won. Trump's numbers didn't add up; the "data" defied probability, possibility, and the polls. Democrats in office did nothing, said nothing, challenged nothing. Numbers in the seven swing states just beyond triggered recounts. Four of those seven states elected Democratic senators (AZ, MI, NV, WI), but we're to believe those same voters didn't vote for Harris?

The Media gobbled it up and again forced him down our throats. Not one question about the numbers that "didn't math." Where the hell was Steve Kornacki? No doubt afraid for his life if he didn't toe the CNN pro-Trump line.

And now? Trump is the most DESTRUCTIVE president in the history of the US. He is gleefully tearing it down or blowing it up with the intent to resurrect something else *in his name*. He's demolished the Rose Garden and the entire East Wing of the White House, now building a grand bunker-ballroom. He's supporting and financing Israel's genocide in Gaza to make way for Trump Tower Gaza. He's building monuments to himself, adding his name and face to buildings, bridges, airports, our passports, National Park passes, currency, the frigging Bible, people, he added his signature to the Bible. (See @Alexandrrthecity on Insta for a review of the Holly Biblay and a bit of righteous-Christian deprogramming.)

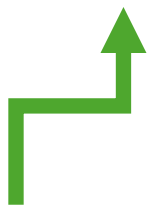

The reflecting pool debacle is a mirror to the entire administration: take something nice, muck it up, cover it up, fake-fix it up, blame someone else—sue them and stick the American taxpayer with the bill—after skimming 10% off the top in contractor and legal fees.

What matters to Trump are ratings, attendance, proof of adoration. He lives in a demented Hollywood reality where every problem can be solved in two weeks or in the next made-for-tv episode--simply by stating it in a post on Truth social, his failing social platform, which he's now monetizing and turning into an inside-trader's tally sheet for a mere \$100,000 a month!

He believes his own rhetoric; he's the hero in his own story. Natalie Harp, his butt-wiper and "human printer," follows and feeds him stories and photos that reinforce that warped image. He thinks and cares little of and for the America people. He can't relate to the average working man or woman. When asked if he thought about Americans' finances, he said "not at all," as evidenced by his policies. **He says "affordability" is a "hoax." Trump also said, "No one gives a sh*t about housing."**

Says the orange buzzard spending **billions** to "renovate" the White House.

In the meantime, fuel/oil is up 44%, coffee up 18%, ground beef up 17%, hospital services up 6%, medical care, and rent up 3%. And the minimum wage is still \$7.25/hour!! The average American only makes \$50,000/year, but our congressmen and women make \$174,000/year plus a hefty per diem of \$34,000/year, a tax-free pay raise they just gave themselves.

Trump and this Republican-controlled Congress have taken food, housing, and healthcare away from millions here at home (as well as around the world): children, the elderly, the challenged and disabled—our Veterans!! He, Musk, and DOGE decimated our federal agencies and workforce—many people in critical, nation-securing roles. Scientists and civil servants with decades of knowledge and experience, gone.

Trump continues to rig and play the stock market making BILLIONS of dollars in crypto currency from foreign countries. He just opened his own bank with 50% backing by the Saudis. He's enriched his family and friends through insider trading and prediction markets; threatened, coerced, and bribed corporations while demanding a stake in the profits; flat-out granted billions of dollars to his sons, Elon Musk, self-dealing contractors, and others. He's fleeced his own believers with cheap trinkets carrying his name; **and—WORST OF ALL—hijacked the federal prison system and invested in the private prison companies that are PROFITING OFF OF THE INHUMANE TREATMENT OF IMMIGRANTS.**

TRUMP WANTS TO THROW YOU IN PRISON, TOO!

That is why his DOJ has declared "Antifa" a terrorist organization; anyone who opposes Trump is now a terrorist. Anyone EXERCISING THEIR FIRST AMENDMENT RIGHT TO SPEAK AGAINST DONALD TRUMP'S PEOPLE-AND-PLANET-KILLING AGENDA--IS NOW A TERRORIST.

He's got the Supreme Court in his pocket, mostly. In July, in two separate, incompatible, and unexplainable rulings, SCOTUS upheld a civil jury's verdict that Trump was liable for sexually assaulting and

defaming E. Jean Carroll, and owed her \$5+ million, AND they gave him more power to hire and fire people in previously non-partisan government positions.

SCOTUS has already given Trump's ICE force permission to target people based on race, ethnicity, and language. No due process. No protection FROM the government.

No surprise. Trump's hand-picked judges began their assault on women's rights by overturning Roe v Wade in 2022. If the Democrats don't take back the House and Senate in the midterms and halt this assault on women's rights and human rights, Trump and Republicans WILL outlaw abortion and ban contraception across the nation (said Todd Blanche, Trump's personal attorney now in charge of the Department of Justice); overturn gay marriage; put our homeless, disabled, and Veterans into institutions; roll back voting rights while continuing to gerrymander districts; and continue to hunt, imprison, persecute, torture, and deport our non-white people. All while funneling money to the top 1%.

Every one of us **who ISN'T rich, white, silent, supportive, and male** is under assault by Trump, his administration, and policies. We will continue to pay more at the pump and the grocery store. Because as his teacher William Kelley at the Wharton School of Business said,

"Donald Trump was the dumbest goddamned student I ever had."

Sadly, there are millions who don't know it, or when confronted with facts, don't believe it. People are losing their jobs, their livelihoods, their lives, and Trump only cares about Trump. The brologarches care even less; they want your money—Republican, Democrat, Independent, non-voter...doesn't matter, they're going to get your money.

"Only when the last tree has been cut down, the last fish been caught, and the last stream poisoned, will we realize we cannot eat money."

Cree Indian Proverb

Ramp up that War Machine! Merging IMMORALITY, Money, and Tech

The Military, too, has been compromised. Pete Kegsbreath Hegseth, spewing pulped-up Bible verses and flaunting nazi-themed tattoos, leads the Department of "War," preaching US dominance and armageddon while enforcing the Fox News lies and propaganda (with a dress code: no fatties or trans allowed!)

J.D. Vance said in September he's "doing God's work," and if that "leads to end times" he's okay with that. These war clowns, Trump, Hegseth, and Vance are just itching to push that nuclear button.

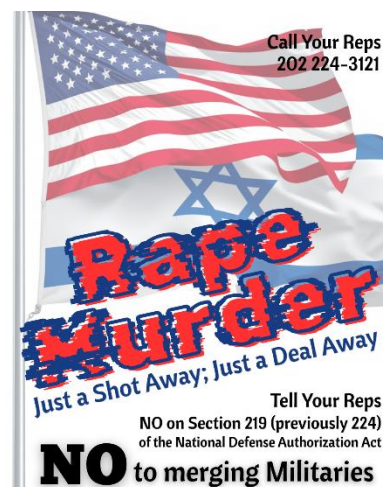

Trump has appointed four of the tech bros from Palantir, Meta, and Open AI to the rank of Lieutenant Colonel! Active duty and Veterans, you okay with that?! A rank which takes 15-18 years of service to earn, now bestowed on people using AI to target other people to blow up.

Diversity, equity, and inclusion (DEI) standards, established to guard people from discrimination, were dismissed across all federal branches, including the military. Black men and women, many with long, distinguished military careers have been discharged and replaced with Trump loyalists. **Over 25 top generals and admirals are gone.** The Pentagon reported over 80 generals and flag officers have been fired, retired, or sidelined.

The military has been gutted and restructured, now led by people who can't even get food to 5000 sailors and marines deployed on the USS Abraham Lincoln to the Strait of Hormuz for Trump's Iran war.

And in October, Republicans and spineless Democrats passed the 2026 National Defense Authorization Act which will merge the United States military with the raping, torturing, murdering Israeli Defense Force.

I'm mortified and terrified. Soon they'll be part of Trump's ICE goon squad.

And the Media, the documenters of actions; conveyors of facts?

In on the action—and failing us! It's all one big reality show, where millions of Americans are left scrambling for food and affordable housing, making crap wages, while watching the dismantling of our government, the selling off of our lands, and the total disregard of the destruction of the people or planet, **watching our loved ones, family, friends, and neighbors getting picked up off the streets by Trump's private ICE agents!** For what? Money? Power?

THE PEOPLE IN POWER WANT WAR!

Trump declared it loudly by renaming the Defense Department the Department of War; by spending billions of dollars to bomb Iran (and nine other countries: Afghanistan, Iraq, Libya, Nigeria, Pakistan, Somalia, Syria, Venezuela, and Yemen), capturing and killing other world leaders, and by pitting the American people against each other by accusing Democrats of being enemies of Republicans.

Trump also wants war so he can control the midterm elections. He's doing everything he can to gerrymander states, seize voter rolls, and influence local election officials. And we are not safe from the influence of Elon's "vote-counting computers."

Capitalism, greed, and immorality are bankrolling the current assault on human rights. It's time for all decent human beings to stand for each other, and ultimately ourselves.

POWER TO THE PEOPLE!

People, we are different parties because of our differences in ideology. That's why Trump has caused marriages to fail and friendships to end. It's hard being friends with someone who thinks nothing of immigrants in cages in for-profit detention centers. Or doesn't care Trump (allegedly) raped little girls and thinks he's Jesus. Someone who approves racism and hatred towards lgbtq people simply because they can't relate. And I'm not spending time with people who think the government should control a woman's body.

I'm not naïve enough to think the Democrats have all the answers. I personally am DONE supporting any Democrat who supports Israel, but Democrats in general support people and the planet!

What are you voting FOR when you vote for Democrats? Making billionaires pay their fair share; providing universal healthcare to ALL; supporting food, housing, family, and education programs; protecting our public lands and wildlife; a woman's right to control her own body; equality and protection for all.

92 MILLION people didn't vote in the last election. If 3.5% of them vote in the midterms, we can stop Trump and the Republicans these next two years. They've already announced they're coming for Social Security after the midterms. The program that MILLIONS of Americans paid into with EVERY paycheck earned. That our employers paid into with every check we earned. Social Security is not an entitlement. It's a contract with the government with funds coming due when you turn 65. Trump and Republicans plan to steal and privatize that, too.

Have you had enough of Trump's destruction? Will you vote for change?

Your neighbor is counting on you, your country is counting on you, the whole world is holding its breath—and counting on you. Vote like your life depends on it, because it does. Trump and Republicans are coming for our rights. The inalienable right to exist, the human right to live and love freely, the civil right to reside in this country for the pursuit of happiness, all rights granted and guaranteed by the Constitution of the United States.

“Courage is found in unlikely places.”

We all come from somewhere!

“The essence of America—that which really unites us—is not ethnicity, or nationality, or religion. It is an idea—and what an idea it is: *that you can come from humble circumstances and do great things. That it doesn’t matter where you came from, but where you are going.*”

Condoleezza Rice

That idea—you can come from humble circumstance and still do great things—is the essence of America, guaranteed and protected by our United States Constitution.

That idea is both a human right and an individual right.

A human right: the nationally and internationally recognized right of a human being to exist *merely* by being present (heart, mind, and spirit) in a body!

An individual right: the freedom to do what you’d like, without government oversight and prosecution, *as long as you don’t infringe on the rights of others!*

Today, **Condoleezza Rice**, the first female African American Secretary of State and the first woman to serve as National Security Advisor, under George W Bush, would join the 95,000 other black women federal workers who *lost their jobs early in 2025 due to Trump’s anti-DEI policy.*

Trump and his administration of incompetent and immoral white men are a hard NO on DEI: diversity, equity, and inclusion. He and they stand directly against fairness, competence, and merit, favoring white men in roles of leadership and governance, despite their lack of education, training, or qualification.

Ironically, *all* these white men—making up new rules for others to follow—came from somewhere. Even Donald Trump.

Trump was born to immigrant parents. His real ancestral last name is DRUMPF. His military-dodging granddad came from Germany; his hair-challenged mother arrived from Scotland. Two of his three wives were/are immigrants. Four of his five kids were born to immigrant mothers. That’s America!

For the last 600+ years, people have been coming to America, and for the last 140+ years, I, Lady Liberty, have greeted them. Refugees and immigrants arriving via boat, plane, and on foot...all races, all nationalities, all religions...seeking, believing in the land of opportunity, bound by common dreams of a better life.

Now? 2026? They're being detained.

What gives Donald Trump the right; who gives Donald Trump the authority to throw these people in cages, hold them in detention centers, put them on planes to foreign prison camps, take their children, seize their property, play judge/jury/executioner to a mass of people over the **timing** of when they arrived?!

Trump's immigration policy was not approved by Congress or the voters. His executive order "securing the border," signed his very first day back in office, is unlawful and should terrify every one of us because the majority of us come from immigrants.

"To deny people their human rights is to challenge their very humanity."

- ☐ Indigenous American, First People, Native American, Mexican American (crossed by the border)
- ☐ Descendent of slaves; kidnapped, trafficked, sold for labor to an American (liberated by the 13th Amendment in 1865)
- ☐ Refugee, displaced by a catastrophic weather event, WAR, or persecuted by your own government
- ☐ Someone in your family came years ago, risked it all and crossed an ocean for America, the land of the free and the home of the brave
- ☐ Born here, a child of someone seeking a better life
- ☐ Other: Insert your own story here!

I am Lady Liberty.

I stand with and for each of you regardless of the circumstance or timing of when you arrived.

I, too, am an immigrant, a French woman, technically; I arrived in New York City by boat in 1855. I was conceived almost 20 years earlier by Edouard Laboulaye, a Frenchman who believed in individual freedoms and dreamed of a France with the same opportunities as America—*freedom from government rule and oppression*.

But Laboulaye was galled by the plight of Africans forced into slavery. Today, he'd be dismayed and angered by the imprisonment of Black Americans in a school to prison/work/slave labor pipeline. And he'd be appalled at the treatment of our immigrants.

I was created to commemorate the 100-year alliance between France and the emerging United States during the American Revolution--a relationship now in jeopardy because of Trump's disdain for European allies.

But I was also created to celebrate the end of the Civil War and the freedom of the slaves! Rumor has it I was originally modeled after an African woman.

I'm 62,000 pounds of copper, hand-sculpted by Frederic Bartholdi with a 151' steel spine from Gustave Eiffel. I stand upon a pedestal of concrete of the same height; when constructed in 1886 it was the largest of its kind.

Altogether, I stand 30 stories tall.

By the time I was placed on my pedestal in New York Harbor in 1886, over 8 million people had already immigrated to America. Another 24 million arrived in the first 50 years on my watch. Human beings, people looking for a better life, risking everything on a boat ride, few possessions, but with grit, determination, and hope.

Today, over 100 million Americans can trace their ancestry back to Ellis Island. Is that you?

And now, my dear friends—and voters—a short history lesson:

From the Declaration of Independence, 1776

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among them are Life, Liberty and the pursuit of Happiness."

With these words, the United States declared their independence from Great Britain. The Revolutionary War, 1775-1783, took 13 years, the loss of 25,000 Americans, and alliances with France and Spain until the British conceded and America was free.

The United States Constitution, the supreme law of the land, was written the summer of 1787 and ratified in 1789. It officially replaced the original Articles of Confederation which had been ratified in 1781 during the Revolutionary War.

The US Constitution establishes the structure of our government and the framework in which we all agree to live. It contains the **Bill of Rights**: legal and moral entitlements granted by virtue of *being human and alive and in the United States*.

Lady Justice explains the structure and framework in the next chapter and details how the law clarifies and enforces the US Constitution and the Bill of Rights.

Civil War

It took 80 years until the Constitution was challenged. The dispute? Slavery.

Abe Lincoln and the Union armies fought for remaining one nation and freeing the enslaved people.

The Confederacy wanted to secede from the nation, keeping people as their property, continuing their forced labor.

Over 618,000 Union and Confederate soldiers died in the Civil War, 1861-1865, a very steep price to pay, but thanks to Lincoln's leadership and the resilience of the Union army, 4 million slaves were freed.

Four million! That's a lot of descendants.

From Lincoln's Gettysburg Address at the end of the Civil War, 1864

"Four score and seven years ago our fathers brought forth on this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.

...from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion -- that we here highly resolve that these dead shall not have died in vain -- that this nation, under God, shall have a new birth of freedom -- and that government of the people, by the people, for the people, shall not perish from the earth."

Heads up, my people, that government is being replaced by Donald Trump's authoritarian take-over. Your rights are being infringed upon, and there are a **lot** of people perishing from this earth!

Equal Rights: *inherent and universal* rights granted all Americans against discrimination based on race, color, national origin, religion, gender, sexual orientation, age, and/or disability.

Civil Rights: the *legal* rights granting you equal rights and protections against discrimination based on race, color, national origin, religion, gender, sexual orientation, age, or disability, AND *freedom from government or private infringement*.

Equal Rights are for Equals; That's Not You

Trump doesn't believe in equal rights because he doesn't see other people as equal. He sees women as inferior. He calls black people lazy, and brown people vermin. He's persecuting trans people and all of the lgbtq community is next.

He doesn't recognize your right to religion, to worship who and how you please. He's declared Evangelical Christians his flock and anointed himself "the Chosen One." He thinks the US is a Christian nation, and he thinks he's Christ.

He believes in the "prosperity" gospel where God wants all the preachers to live in mansions and fly private jets. He's given bail-out money to the churches that support him even though they pay no taxes. He uses the Bible as a prop and seldom sets foot in a church unless it's a photo op. He's attempted to ban the Muslim religion in direct defiance to the Constitution.

"The Government of the US of America is not, in any sense, founded on the Christian religion."

John Adams

Trump doesn't recognize your Constitutional right to complain—especially about him. He doesn't believe in your **1st Amendment right to free speech**. He's now punishing and prosecuting people and agencies who speak out against him.

"Without freedom of speech there is no modern world, just a barbaric one."

Ai Weiwei

From the US Constitution: Your 1st Amendment Rights

"Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of

the people peaceably to assemble, and to petition the Government for a redress of grievances.”

Trump doesn't want you speaking up and he certainly doesn't want you assembling with your neighbors and protesting in the streets!

When protesters took to the streets after the cruel, intentional murder of George Floyd by a Minneapolis police officer, he astounded his then Defense Secretary Mark Esper.

“Can't you just shoot them? Shoot them in the leg or something?”

Donald Freaking Trump

No, Donald Trump, you can't shoot protesters! But since that protest, Republican legislatures in 14 states have passed legislation *criminalizing peaceful assembly*.

There is a full-on assault of protesters in America by Trump's ICE goons—with an assist from local police! They are openly and brazenly killing people who are protesting their vicious and violent tactics.

Renee Good and Alex Preti are but two peaceful protestors gunned down by trigger-happy killers wearing masks. Peaceful protestors, here in the United States, met with teargas, beatings, electric shocks, arrest, and bullets—compliments of Donald Trump.

Trump has labeled the protestors “domestic terrorists” and criminalized their activity. He calls them ANTIFA, as if people who disapprove of FACSISM are wrong!

Donald Trump IS a fascist, a fool, a dictator, and a menace to the world!

“The Russian Constitution is much better than the American one. Putin told me he never has any problems with his Constitution.”

Donald Trump (rumored, unsubstantiated, Moscow agent, Krasnov)

Trump has aligned himself with Putin; he's aligned himself with Musk.

Elon Musk, the man who spent \$240 million getting Trump elected, who has since had over 60 investigations/inquiries/enforcement actions into his multiple

businesses **dropped**, who has received \$38 BILLION of taxpayer dollars through new Trump/government contracts.

If it weren't for illegal immigrant Elon Musk, Trump wouldn't be president at all.

"Without me, Trump would have lost the election, Dems would control the House, and the Republicans would be 51-49 in the Senate."

Elon Musk

Elon Musk's brother *admitted* both he and Elon were in the United States **illegally** before they obtained US citizenship. Yeah, **that** Elon Musk who "knows those vote counting computers better than anyone," according to Trump.

Elon Musk could have been a hero, feeding the world, protecting our planet, linking people and communities. Instead, he's the villain: his time, money, efforts, and actions all go towards dismantling the American government, starving millions of men, women, and children around the world, lying/conning/scamming/buying his way into others' technology/businesses, impregnating numerous women with his drug-fueled dreams of producing superior progeny, visiting Epstein Island, shooting himself into space, and talking gibberish about colonizing Mars.

Over 800,000 people, mostly children, have died due to Donald Trump and Elon Musk's DOGE cuts to USAID, according to Boston University researchers. That's the equivalent of the entire city of San Francisco.

Many of our government agencies no longer exist due to Trump and Musk! Vital, life-saving programs no longer exist. Everyday services that keep our communities safe are all but gone. Like the National Weather Service.

Weather: it's what we all have in common

Every region of the United States has weather threats: tornadoes, hurricanes, wildfires, flash flooding, extreme temperatures both high and low.

We **need** daily weather reports to prepare for our day. Many, many industries and businesses plan their schedules around the weather. Many clean-up after the weather. Weather itself has become an industry needing education, research, and predictive analysis. And, weather reports, of course--relaying that information to the public--are a vital component in the SAFETY of communities.

The National Weather Service was created in 1870 by President Ulysses S. Grant. **That's** how important predicting weather is. Now, over 150+ years of information and resources are being dismantled, disabled, or destroyed. Websites with decades of information are offline, temperature-measuring ocean and atmospheric equipment have been decommissioned, scientists with years of learning, training, and experience have been purged, forecasters no longer have a public forum to share information. Very few are left to warn us of Mother Nature's wrath.

Millions of Americans are now at risk of weather catastrophes because Donald Trump cut funding to save a few bucks **and** to privatize it. Why offer a public service when you can steal the technology, package it, and SELL it?!

Or why help at all?! Trump has defunded FEMA leaving hundreds of thousands of Americans at the mercy of the weather with little help from the Government.

Trump flat-out withholds disaster relief funds for States that voted against him.

Trump's battle cry—America first—is nothing more than **me me me** first. He's enriched himself, his kids, friends, and sycophants on the backs of the American people and the foreign governments buying favor. His financial disclosure in 2026 revealed that in 2025 alone, he made \$2.2 Billion. Now in 2026, it's reported Trump has made \$4 billion while in office. He, his tax-avoiding billionaire buddies, and foreign capitalists are sucking up all the cash and resources, reallocating that money to war and making more money.

Since Trump's reelection, Elon Musk has made \$500 billion, Larry Page another \$177 billion, Sergey Brin \$170 billion, Jeff Bezos \$70 billion, Mark Zuckerberg \$16 billion, Larry Ellison \$11 billion.

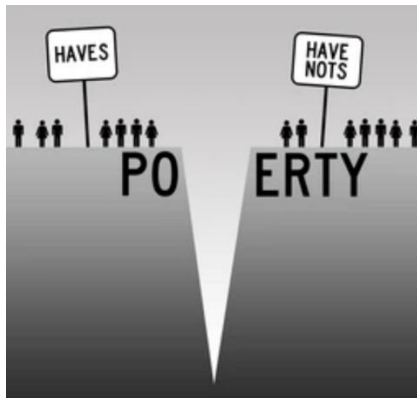

Thanks to Trump, Meta received \$21 billion in tax breaks; Zuckerberg answered by cutting 11,600 jobs. He's now worth \$237 billion.

Let's be clear: Trump would NOT be able to destroy our government and agencies without the help of the Broligarches. If any of them had a moral compass, their money would not be used to harm Americans but to help. They have enough money to feed the world over and over, but, alas, not a give-a-shit among them.

"Some people are so poor, all they have is money."

Bob Marley

We're living in a kleptocracy: a society whose leaders make themselves rich and powerful by taking from the people. Our tax dollars are being funneled to the top 1%.

Capitalism and greed are choking out equality, morality, humanity, and opportunity.

America has become a land of "haves and have-nots" with the wealth and morality gap widening each year.

Trickle-down economics has been replaced with GUSH-UP economics.

Most Americans are suffering from economic hardship, including higher gas, fuel, utilities, rent, healthcare, and food costs due to Trump's disastrous tariffs. Trump, billionaires, capitalists, bureaucrats, and politicians are making out like bandits.

The crimes and funknuttery are in plain sight! The majority of Americans see Trump for the heartless, soulless greedy bastard that he is.

From Oliver Kornetzke of Wisconsin, August 2025:

"Behold. The festering carcass of American rot shoved into an ill-fitting suit: the sleaze of a conman, the cowardice of a draft dodger, the gluttony of a parasite, the racism of a Klansman, the sexism of a back-alley creep, the ignorance of a barstool drunk, and the greed of a hedge-fund ghoul—all spray-painted orange and paraded like a prize hog at a county fair. Not a president. Not even a man. Just the diseased distillation of everything this country swears it isn't but has always been—arrogance dressed up as exceptionalism, stupidity passed off as common sense, cruelty sold as toughness, greed exalted as ambition, and corruption worshipped like gospel. It is America's shadow made flesh, a rotting pumpkin idol proving that when a nation kneels before money, power, and spite, it doesn't just lose its soul—it shits out this bloated obscenity and calls it a leader."

Thank you, Oliver, for so perfectly articulating what a great many Americans are thinking and feeling. According to the latest polls—fewer than 1/3 of Americans approve of Trump's performance.

It's not just Trump's character; it's his policies that harm the planet and all people living on it.

When Trump tried to justify his war on Iran, Tony Locke, an Australian gentleman, responded to his whining about "NATO not being there for America" by laying out all the reasons Trump has been terrible for America:

"Mate. You run a country with 600,000 homeless people sleeping on the street tonight. A country where 40% of adults can't cover a \$400 emergency without borrowing money.

A country where insulin costs more than a car payment and people are rationing it to survive. A country where medical debt is the number one cause of bankruptcy.

A country where women are dying in hospital car parks because doctors are too scared of abortion laws to treat a miscarriage.

You lock up more of your own citizens than any nation on earth. More than China. More than Russia. More than North Korea. The land of the free has two million people in cages, and a quarter of them haven't even been convicted of anything. They're just too poor to make bail.

Your life expectancy is going backwards. You're the only developed nation where that's happening. Your infant mortality rate is worse than Cuba's. Your kids do active shooter drills between math(s) and English while you sell the gunmaker's stock to your mates.

Your minimum wage hasn't moved in 15 years.

You've got teachers working 2 jobs and veterans sleeping under bridges and you just spent a trillion dollars flattening a country that didn't attack you.

And you've got a convicted felon, adjudicating raping, pedophile protecting, porn star shagging insurrectionist running the biggest dumpster fire war campaign since the Taliban thanked you very much for losing again.

And you're calling Greenland poorly run? Greenland has universal healthcare. Free education. One of the lowest incarceration rates in the world. Nobody goes bankrupt there because they got sick. Nobody dies in a waiting room because their insurance said no.

'NATO wasn't there when we needed them.' When exactly was that, champ? September 11? Because NATO invoked Article 5 for the first and only time in history FOR YOU. Soldiers from dozens of countries deployed, fought, bled, and died in Afghanistan FOR YOU. Australia wasn't even in NATO and we still showed up. For 20 years.

And you pulled out at 2am without telling anyone and left them to deal with the mess.

So maybe before you start calling other countries poorly run, have a look at your own backyard, you spray-tanned aluminum siding salesman.

The only thing poorly run in this picture is your f----- mouth." - Tony Locke

(Quoted verbatim without Tony's consent. Sorry.)

Here, here! Applause, applause! Thank you, Tony, for calling out some of the biggest challenges that face Americans, many caused by Trump himself because of DOGE cuts and the gutting of our government agencies.

Here are the agencies he's defunded and dismantled:

- U.S. Agency for International Development (USAID)
- Consumer Financial Protection Bureau (CFPB)
- Federal Emergency Management Agency (FEMA)
- National Oceanic and Atmospheric Administration (NOAA)
- National Institutes of Health (NIH)
- Department of Education
- Centers for Medicare & Medicaid Services (CMS)
- Internal Revenue Service (IRS)
- Department of Homeland Security
- Cybersecurity and Infrastructure Security Agency (CISA)
- Department of Energy
- Department of Agriculture
- Department of Transportation
- Department of Housing and Urban Development

Don't be fooled; Grinch Trump is not capable of growing a heart.
(And, please, someone—rescue Cindy Lou!)

In addition, Trump has cut funding for:

- | | |
|------------------------------------|-------------------------------|
| • Cancer research | • Public health and safety |
| • Scientific research | • Centers for Disease Control |
| • Clean Energy research and grants | • Social assistance programs |
| • Public lands and National Parks | • Medicare, Medicaid |
| • Public Broadcasting | • International programs |

There's no money for these programs. Instead, the money is going to Trump's vanity projects:

- Ballroom Bunker
- Trump Artillery Arch
- Paving the Rose Garden
- The White House helipad
- Reflecting pool
- Statues overlaid with gold
- Gaudy gold in the Oval Office
- Kennedy Center redesign
- DOD rebrand to Dept of War
- July 250 Parade and fireworks
- Cage fights on the lawn
- NASCAR in the streets of DC

Women Under Attack

When the United Nations' Commission on the Status of Women passed an agreed conclusion promoting equal rights for women, the United States was the only country to vote NO. 37-1. In March of 2026!

In the United States, **the 19th Amendment grants women the right to vote**; it was ratified in 1920, just 106 years ago. Extreme Republicans want to repeal that amendment and strip women of that right.

Trump has rolled back equal pay for women, slashed access to birth control, banned abortion, and given Congress authority over women's bodies.

In 2022, Trump's extreme Supreme Court, overturned Roe v Wade and millions of women across the country lost access to safe abortion services and life-saving reproductive care.

Women are bleeding out and dying in hospital parking lots. A 31-year-old, brain-dead woman in Georgia (pause for a moment, please: God rest her soul) was kept alive for 16 weeks until her pregnancy was 26 weeks. They removed a 1.5-pound baby (pause a moment: God bless his heart) with extreme health challenges, who continues to struggle to this day.

Women in Republican-led states no longer have the same protections that women in Democrat-led states have. Republicans continue to vote to control women's bodies making decisions based on their own morality as opposed to science and medicine.

Democrats think Republicans should keep their noses out of our vaginas and uteri. These are decisions for patients and doctors; the government should have no say in a woman's reproductive care. And that includes in vitro fertilization and contraception!

Vote for Democrats here

Republicans
OUT OF HERE

Republicans intend to:

- Ban Abortion Nationwide
- Criminalize Abortion Services
- Outlaw Birth Control

Republican =
FORCED BIRTHS,
NO Exceptions
for rape, incest or
life of mother!

Should the Republicans retain control of the House and Senate after the Midterms, Trump and Republicans plan to outlaw abortion access across **all** 50 states. Weird wizard Dr Oz thinks we're "under-babied." Who talks like that? ffs

I'm truly flabbergasted by the number of women who vote to take away their own rights. Don't condone abortion? DON'T HAVE ONE. But it is a necessary medical procedure, and women will die without access.

What's happening in someone else's womb is NONE OF YOUR BUSINESS.

What's happening in someone else's bedroom?

Nunya. None of your dang business!

But who's made women his "business"?
Trump. Epstein. Maxwell. Thousands of others
feeding the monsters.

"I love beautiful women. I'm not supposed to
say that, but I love beautiful women." "And a few of
them are on the younger side." Says the pervert
who's listed in the Epstein Files thousands of times.

Trump values women for what he can get from
them. Like every other aspect of business, if he doesn't get what he wants, he takes it.

A civil jury in New York confirmed he sexually assaulted E. Jean Carroll, and the
judge in that trial clarified his actions as rape. He's now paid her the initial \$5 million,
kicking, screaming, and appealing all the way to the Supreme Court who refused to
hear the case letting the lower court order stand. The \$80 million defamation case is still
pending.

Over 25 other women have complained of Trump's sexual misconduct. As a close
friend of known-pedophiles Jeffrey Epstein and Ghislaine Maxwell, he's also accused of
raping a minor girl (Katie Johnson) and boy (Sascha Riley). Trump himself admits to
bringing in 13–14-year-old European girls with his modeling agency. These stories are
bought off and buried but confirmed by the Epstein files that have been released.
Google it yourself.

And it's not just women's rights that are under assault. The LGBTQ population is
being targeted. Many Republicans openly speak about repealing the right to same-sex
marriage. And heaven help you if you're trans!

The 14th Amendment guarantees equal rights: that all individuals possess identical
status, protections, and privileges. They cannot be discriminated against based on age,
gender, sexual orientation, race, or religious affiliation.

Yet here we are as a nation, 250 years later, **still** fighting for women's rights, the
rights of African American people, the descendants of slaves; still fighting for the rights
of Native Americans to occupy their own land; and now fighting vehemently for **all**
immigrants (especially brown-skinned or not white or rich enough for Trump) to stay in
this country.

Donald Trump's ICE goon squad, Border Patrol, Department of Homeland
Security, and Federal Bureau of Prisons are hunting, detaining, starving, torturing, and

deporting PEOPLE to countries they've never visited--and some don't make it out at all! Over 50 people have already died in ICE custody this year.

And Trump's Department of Homeland Security just authorized up to \$20 MILLION for shock gloves. The manufacturer, Compliant Technologies out of Lexington, Kentucky brags, they bring "individuals into compliance in less than three seconds and leave no burns, marks, or scars." These gloves are already being used in prisons AND some school districts across the nation.

It is inhumane!

Using these electroshock gloves is advocating for control through torture! But, hey, cruelty and control go hand-in-glove in Trump's world. Pun intended and not funny.

I think people advocating for this torturous glove technology, every person sporting and intending to deploy this technology, needs to understand the consequence of this weapon. Their training needs to include shock therapy: take one before giving one. They must understand the pain they are choosing to inflict.

Civil Rights: America, the land of "the Free"?!

Not when incarceration is a business! ***Over 2 MILLION Americans are currently in prison in America!***

Before Donald Trump's second term, the US had:

- 25% of the world's prison population but only 4% of the world's human population
- 38% of prisoners are Black; only 12% of Americans are Black

And now, for Trump's second term, he, Donald Trump, along with the two biggest for-profit prison systems, CoreCivic based in Tennessee and the GEO Group based in Florida, both publicly traded, investor-owned agencies, are profiting off the lives of immigrants who are incarcerated without due process! Over 70% have no criminal record. THIS is institutionalized oppression where Trump and for-profit prisons make bank on human suffering.

They are torturing the inmates, holding them in cages so full they are standing-room-only, leaving the lights on 24 hours a day, denying them clean drinking water, serving them maggot-infested food while denying them healthcare or access to legal representation. Congressmen attempting to conduct oversight visits are denied access.

This inhumane treatment is directly due to Donald Trump. All other presidents were able to deport people without this level of cruelty.

And the children!! Also in cages. Ripped from their parents. Many will never be united. Another 3000-bed facility was just approved in August '26—exclusively for children! Eight kids to a cage, one toilet. Imprisoned without due process. Dilley Detention Center in Texas currently imprisons thousands of minors and the young girls

are being raped and impregnated, then denied prenatal care. Where are those babies going? Trafficked to Trump's Epstein friends?

Trump hasn't just dismantled the rights of immigrants; he's dismantled the Constitution and all the agencies that guarantee due process to those falsely accused. And it's not just immigrants that are under attack!

The American Dream is collapsing around Americans. They're losing their farms and ranches, homes, and businesses. Food is expensive and growing scarcer by the day. Water sources are being bought up, packaged, and sold back to the people. Like data and the new AI systems.

"Power tends to corrupt, and absolute power corrupts absolutely."

Lord Acton

Donald Trump needs to stay in power, or he'll reap what he's sown. Greed and the desire for power led him to seek the presidency; these idols will ultimately be his downfall.

"This nation will remain the land of the free only so long as it is the home of the brave."

Elmer Davis

Cue the Military!

Military Might: Army, Navy, Air Force, Marines, Coast Guard, Space Force

Under command of a narcissist and drunk, Trump and Hegseth are blowing up fishing boats, bombing schoolgirls, kidnapping other country leaders, plundering and waging war.

Trump promised NO new wars. And then he bombed Iran. He's Bibi's bitch. Netanyahu has been dangling the war carrot for decades. Trump is the only American president dumb enough to do his bidding, and this Republican congress is too stupid and spineless to stop him.

Now, beginning in 2027, Trump and Congress are blending the Israeli Military with ours! Man, woman, child raping, torturing, killing Israeli soldiers. Perpetrators of genocide. They're already here conducting joint training ventures at Hill Air Force Base in Utah.

An IDF soldier and Senator from Florida wants the US taxpayer to now give Israeli murderers benefits. We can't even take care of our own military, let alone our Veterans, and Republicans think we should give more to Israel.

Today there are 1.3 million Active-Duty service members. An additional 1.5 million counting the National Guard, Reserves, and department of Defense civilian staff.

But make no mistake, Trump DOGEed the military as well. He and Keghead have cut over 45 prominent high-ranking officials including 4-star Generals and Admirals, 3-star Lieutenant Generals and Vice Admirals, and 2-star Major Generals and Rear Admirals. That's in addition to dismissing high-ranking female officers due to anti-DEI policies.

Instead, Trump installed four tech bros into the rank of Lieutenant Colonel. Executives from Palantir, Meta, OpenAI, and Thinking Machines Lab (formerly with OpenAI).

In addition, we have 15 million Veterans, around 6% of the adult civilian population. They've already served their country and now Trump's Big Ugly Bill is intentionally cutting them off. The Veterans Administration was hit hard by DOGE cuts including layoffs of staff and closing of facilities, reduction in compensation benefits, increased work requirements, loss of food assistance, loss of mental health services.

Simply, Donald Trump is failing our Veterans. "Losers" and "Suckers," is what he calls them: not enough housing or jobs, healthcare challenges, homelessness, suicides. Trump and Republicans are decimating the Veterans Association.

He's deported military members and their families instead of delivering promised citizenship. Children born to deployed US troops are no longer guaranteed citizenship.

Trump shows blatant disrespect and contempt for our Generals and Troops. "I know more than the generals, believe me," Trump said in his first term. Except that's the problem: he thinks he does, but he doesn't.

The Generals know he is crazy and dangerous. Colin Powell said it best.

He is a "national disgrace" and "an international pariah."

General Colin Powell

Over the 4th of July weekend, 2026, our Nation's 250th anniversary, Donald Trump stood in front of a mountain he desperately wants his face carved into.

He told the small crowd in front of Mount Rushmore, we—Americans—are each other's enemies.

He called Democrats, people who oppose him, "hardcore godless communists."

“Donald Trump is the first president in my lifetime who does not try to unite the American people—does not even pretend to try.”

General Jim Mattis

Divide, enrage, fleece, extort, use, discard, repeat. His goal is to turn us against each other.

Humanity, Equality, Civility

We are not each other's enemies! We can agree. A “Common Ground” poll by the organization Starts With Us revealed 90% of Democrats and 90% of Republicans agree on these values and want:

- a government accountable to the people
- fair and equal application to the rule of law
- personal responsibility and accountability
- government to represent the people it serves
- respect and compassion across the differences

According to the Pew Research Center, “Republicans and Democrats largely agree these things give them meaning in life”:

- Family and children
- Friends, community, other relationships
- Occupation and Career

Republicans added to their lists:

- Spirituality, faith, religion
- Society, places, institutions

Democrats added to their lists:

- Material well-being, stability, quality of life
- Hobbies and Recreation

We are meant to get along, and with the right leadership we do! Communication is key, respect and compromise essential. We must keep the conversation going.

“Our lives begin to end the day we become silent about things that matter.”

Martin Luther King Jr.

“Individual liberty is individual power.”

John Quincy Adams

It is time to claim our power. “E pluribus unum”; “out of many, one.” Individually, we are powerful; collectively we are a force! So, **be a force for good!** The United States is filled with good people doing good deeds.

We can and do agree on many issues including the belief that kindness is a key component of Democracy.

"Too often we underestimate the power of a touch, a smile, a kind word, a listening ear, an honest compliment, or the smallest act of caring, all of which have the potential to turn a life around."

Alexandra Katehakis

Not just turn a life around but turn the world around! That's what we need now; that's why Midterms matter:

Kindness is on the ballot!

Stay positive, be hopeful, optimistic, and above all--peaceful. Continue the pursuit of your American dream. Respect others, honor their humanity, see them as equals, entitled to the same rights as you.

With the right leadership and vision, American *can* be a kinder, stronger nation—through diplomacy!

Support and defend the US Constitution and the Bill of Rights. Vote for Democrat candidates who value people and the planet.

One person's vote CAN and DOES make a difference. One vote and one vote and one vote and one vote and one vote and one vote...wins elections! Will that vote be yours?

"The people who are crazy enough to think they can change the world are the ones who do."

Lady Justice

VOTE Like Lady Justice

This is YOU!
1 of 342 million

Together, we are the United States of America.

E pluribus unum: out of many, one.

One person, one neighborhood, one community, one state, one nation. One.
With one set of laws to govern us all--each and every ONE of us.

I'm Lady Justice.

I stand for YOU. Every ONE of you. Especially for those of you who have been wrongly accused.

"Laws are made for the protection of the innocent, not the guilty."

Clarence Darrow

Have you ever been accused of something you didn't do? It happens. And now, due to the newest invasive FLOCK mass surveillance systems installed across the country, using AI technology, monitoring our every passing, storing our private information—selling it to the local authorities, many more will be wrongly accused. When that happens, you have the right to defend yourself.

From the US Constitution: Your 6th Amendment Rights

"In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defense."

Translation: You have the right to an attorney, to be informed of complaints against you, to confront your accuser in a court of law, with a verdict being decided by your peers.

Every person in this country is owed “due process.” **You have the *legal* right to access the *legal* system to address your Constitutional rights—the ones guarded and guaranteed by the United States Constitution: your right to life, liberty and the pursuit of happiness.**

Nearly 100,000 immigrants are currently in ICE detention centers—without due process, the right to tell their story to a judge ***before*** being imprisoned or deported. Over 73% **WITHOUT** criminal records and ***here legally*** going through the entry process. Instead, they’re being starved and mistreated in detention centers, awaiting mass docket hearings and expedited removal. Children, toddlers, taken from their parents and made to sit trial, without a lawyer—without understanding the process or language. Trump et al have made a farce of the courts as they blatantly defy due process.

Over 600,000 immigrants have been deported in just the first six months of Trump’s second reign. Another 1.5 million self-deported, fearful for their lives and Trump’s vicious harm-inflecting policies, unhinged ICE agents, and torturous detention centers. They’re the lucky ones. Thousands are languishing in prison cells.

I, Lady Justice, symbolize our legal system, standing for fairness and equality--no matter your station in life. I administer the law without corruption, favor, greed, or prejudice—no matter how much money, power, or influence you have—or lack thereof!

I, the legal system itself, is under assault by Donald Trump. I’m not blind and I’m not stupid and neither are you. We all see clearly the criminal in the White House. We see his blatant disregard for the rulings of the Courts. He has declared himself above the law.

In September, the Supreme Court told Trump he had to let CNN, MS NOW, and Politico press correspondents back into the White House after he had ejected them. His staff, knowing the verdict, denied their entry, nonetheless.

Lawless. No consequence.

Trump is a triple threat: civil, criminal, moral. He breaks all limits on acceptable behavior. He simply does not care whether his behavior is legal. He recognizes no authority other than his own. The Courts are spending their time deciphering and determining the truth through his misfilings, trickery, misrepresentations, alternative facts, and outright lies. In addition, Trump’s excessive use of the system is itself a strategy to work the system. And while the system grinds *slooooooowly*, Trump is tearing it down—without authority, permission, or consent.

The Justice system is our last defense. *When it works!!*

“Never mistake law for justice. Justice is an ideal, and law is a tool.”

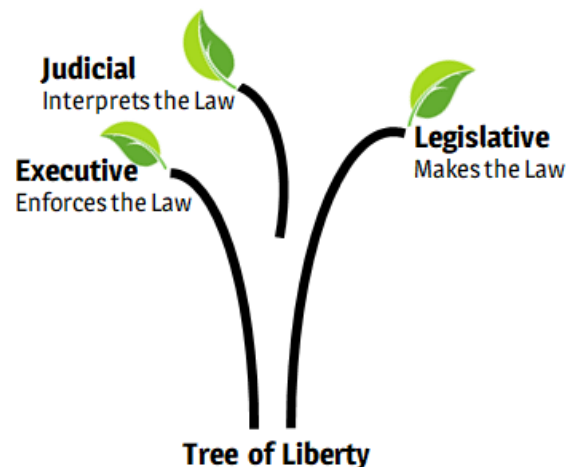

LE Modesitt Jr.

What sets America apart from all other countries is the United States Constitution. It explains how the government works, **limits its power**, and protects people’s freedoms. (See the Outro, pages 5-6.)

The first three Articles explain the framework:

3 Separate But Equal Branches

1. Legislative Branch- the House and Senate
 - a. Write and vote on laws
 - b. Decide taxes, spending, and war
 - c. Check on Presidential power
2. Executive Branch- the White House
 - a. Runs the government daily
 - b. Commander in Chief of the Military
 - c. Sign and/or veto laws
 - d. Choose department leadership
3. Judicial Branch- the Courts and SCOTUS
 - a. Interpret the laws, evaluate fairness
 - b. Supreme Court is the highest court
 - c. Assure everyone follows the Constitution

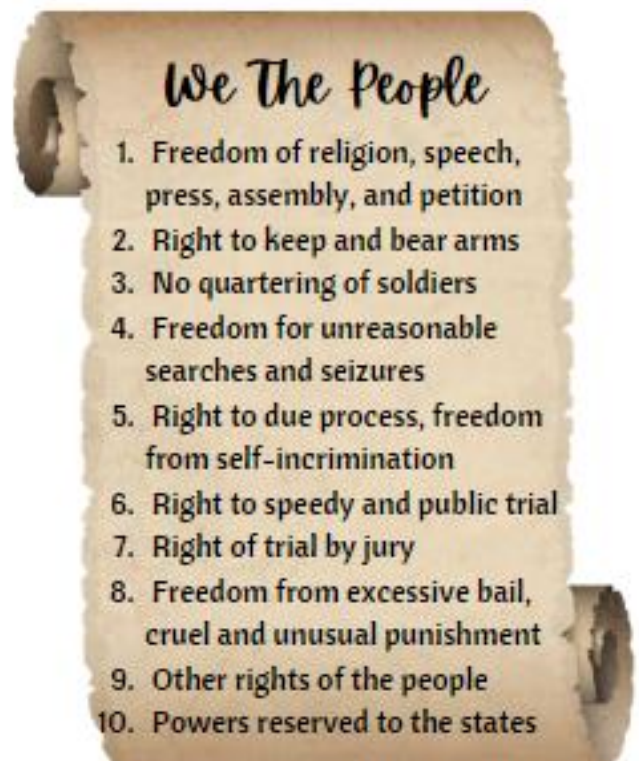

There are 27 Amendments in the Constitution.

The first 10 Amendments are referred to as

The Bill of Rights

As a reminder →

The Court System is Complex and Specific

There are over 1.3 million attorneys in the US and hundreds of thousands of others working in the legal industry. They answer to the Supreme Court. The justices are picked by presidents and confirmed by the legislature. Justices are expected to interpret the law without prejudice or bias.

In addition to the 9 Supreme Court (SCOTUS) justices, there are almost 1500 federal judges, according to the Bar Association. They, too, are picked by the president and confirmed by congress.

And they, too, are expected to rule without prejudice or bias.

And then there are Trump judges....hold that thought.

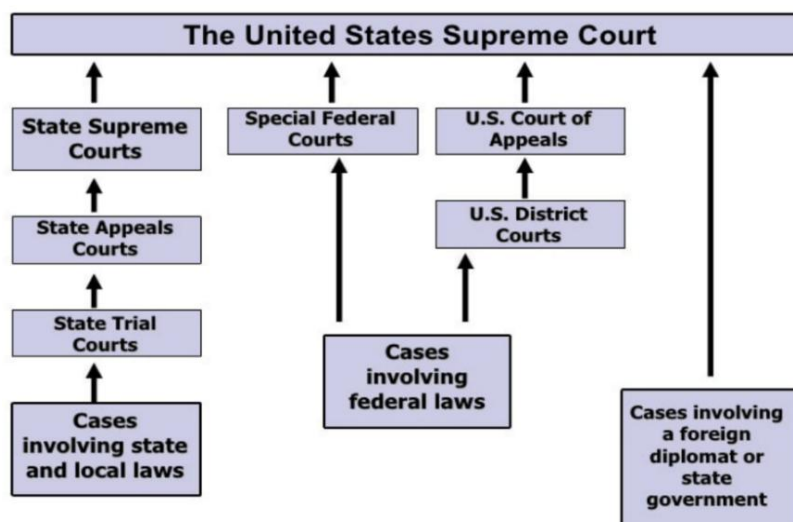

“We are all equal before the law.”

Louis Brandeis

Not all cases go before a jury, but all cases go before a judge. And *any* case before a judge needs an attorney. *The more innocent you are, the more you need an attorney!*

When lawyers bring a case before the Court, a judge presides over the case him/herself or over a jury of the defendant's peers who then determine what happened between the people and parties: who is responsible, accountable, and what the punishment will be. The Court passes judgement. The Executive branch is then expected to enforce that verdict.

But when you're president of that Executive branch, and your own personal attorney heads up the Department of Justice, you can get away with everything, including suing your own government for \$230 million and settling with yourself thereby pocketing taxpayer cash—**and covering up the Epstein files.**

Trump's corrupt Supreme Court handed him a license to lie, cheat, steal, and kill when they ruled he had presidential immunity for acts committed in office. They also ruled the Courts can't enforce their own verdicts when it comes to Donald Trump. When Trump doesn't like the outcome, he simply ignores the verdict and does what he wants.

“The law is only as good as the people who enforce it.”

Cicero

With Trump at the helm, there's no one to enforce it.

Trump is the only president in history that's been criminally convicted four times in four different courts, in four jurisdictions, by four different prosecutors—with no consequences. And, instead of enforcing penalties, Trump's hand-picked SCOTUS justices *expanded* Trump's executive powers allowing him to put Trump loyalists in formerly non-partisan government positions across all **our Government Departments**:

State
Treasury
Defense
Justice
Interior
Agriculture
Commerce
Labor

Health and Human Services
Housing and Urban Development
Transportation
Energy
Education > Labor
Veteran Affairs
Homeland Security

“The first thing we do, let's kill all the lawyers.”

William Shakespeare, Henry VI th Part 2

William Shakespeare's character villain, Dick the Butcher, enthusiastically declares, “let's kill all the lawyers.” No lawyers? No one to oppose lawless schemes and deeds. No one to speak on behalf of egregious and lawless actions, like RIPPING DOWN THE EAST WING OF THE WHITE HOUSE. Or creating his own currency and bank or accepting airplanes from foreign governments.

“Lawyers are the guardians of the Constitution.”

Thurgood Marshall

Lawyers and law firms have been divided into pro-Trump and anti-Trump camps since he arrived on the political scene. Marc Elias, the Democratic Attorney Generals, and EarthJustice are but a few people and organizations fighting Trump in court.

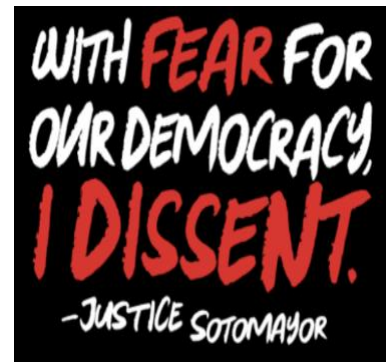

Many of Trump's cases land before the Supreme Court—who then plays referee, throwing many calls to Trump and Republicans. They just threw him a win this week, moving him closer to his goal of gathering voter rolls from every state as he works to federalize elections.

The Courts themselves have been compromised—lured by the love of money and power. The Supreme Court of the United States is the most corrupt Supreme Court in the history of the nation. The John Roberts Court is compromised by Clarence Thomas, Samuel Alito, Neil Gorsuch, Brett Kegan, Amy Coney Barrett, and Roberts himself. They've made millions from corporations that have business before the Court. They've taken lavish vacations, accepted gifts, and made millions on speaking gigs. Elena Kagan, Ketanji Brown Jackson, and Sonia Sotomayor are the justices that support more human-focused ideologies. They often dissent with the twisting and bending of the law to suit Trump and Republicans' discriminatory actions.

As Justice Sotomayor said when her cohort gave Trump partial immunity,

“With fear for our Democracy, I dissent.”

That right, too, freedom to dissent, freedom to speak out, is under assault!

1st Amendment Rights Under Attack: Freedom of Speech and the Right to Protest

“Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof; or **abridging the freedom of speech**, or of the press; or the right of the people **peaceably to assemble, and to petition the Government** for a redress of grievances.”

Trump signed an executive order designating those that oppose his fascist actions as “antifa,” as terrorists. The common people, the ones the Constitution was created to protect, have lost their right to protest.

In the most egregious case of prosecution, citing these “Trumped-up” antifa terrorist charges, the Texas Court in June 2026, sentenced seven of eight protestors to 50 years in prison—each!—*for protesting outside the Prairieland Detention Center in Alvarado, TX.*

They were exercising their 1st Amendment Right to protest a PRIVATELY-RUN, US Government-OWNED PRISON PROFITING off the illegal, unethical, and immoral incarceration of immigrants. Current immigrant population of Prairieland: @1000.

Trump's DOJ came down hard, the message is clear: don't criticize the president and his policies, and--KEEP YOUR MOUTH SHUT AND YOUR ASS HOME!

Meanwhile, ICE goons are empowered to mistreat protestors: beating, gassing, arresting them; ramming cars into them; pulling guns and killing them. These keepers of “Trump's peace,” hide behind masks, and deny American citizens their right to speak up FOR PEOPLE BEING HUNTED, ARRESTED, ABUSED, AND DEPORTED.

Trump continues to target ordinary citizens, political opponents, pro-DEI corporations, news organizations, military leaders, international communities--even as he stands **accused** of:

- Sexual assault
- Tax Fraud
- Racial discrimination
- Bribery
- Consumer Fraud
- Charity Fraud
- Bank Fraud
- Insurance Fraud
- Money Laundering
- Petty Theft

Trump is taking a sledgehammer to our legal and Constitutional framework. He's expanded his own executive authority, weakened Constitutional checks and balances, and politicized independent institutions. Here's what Trump has been accused of or has accomplished:

Weaponized and Politicized the Department of Justice

- Undermined DOJ independence
- Retaliated Against Lawyers
- Purged Watchdogs
- Ended Civil Rights Initiatives

Undermined the Judiciary and Legal Precedent

- Disregarded Court Orders
- Intimidated Judges
- Upended Established Precedent

Executive Overreach and Weakened Checks

- Impounded Funds
- Replaced Civil Servants
- Neutralized Senate Confirmations
- Deployed Federal Force

Targeted Public Trust and Civil Society

- Attacked the Free Press
- Seized Private and State Voter Data

How many times can Trump be impeached?!
Asking for a nation!

Trump's 2nd term impeachable offenses include (allegedly):

- Deploying US Troops against civilians
- Kidnapping US residents during ICE/DHS raids
- Deporting migrants to foreign prisons
- Targeting protestors for deportation
- Diverting taxpayer money without Congressional approval
- Defying federal court orders
- Purging investigators and watchdog agencies
- Corrupting federal agencies for personal and political gain

Donald Trump's criminality extends across the globe. The International Criminal Court has not directly charged him, but he's been **accused of**:

- Conspiracy to commit crimes against Peace
- Committing crimes against Peace: attacking Venezuela and Iran
- War crimes: double-tap bombings of fishing boats in the Caribbean and young schoolgirls in Iran
- Crimes against humanity: detainment, enslavement, murder, extermination of a targeted population; deporting without due process to notorious el Salvador c-cot torture prisons, and thousands of prisoners missing from federal records

How many people does Trump have to harm worldwide to arrest him?
Asking for the world!

Trump has declared himself untouchable, and no one is holding him accountable.

Trump is exactly the tyrant our Founding Fathers envisioned when they established **three co-equal branches** of this Government.

“When law ends, tyranny begins.”

John Locke

But the Founding Fathers didn't anticipate a flabby-titted orange narcissist with a God complex who soils himself and sleeps through meetings, assisted by oligarchs and hostile foreign governments, billions of dollars fed into a propaganda machine to brainwash the people, and spineless sycophants in the Legislature. They didn't anticipate Trump's corporate bootlickers, eager to do his dirty work then get stiffed on the pay. That's Trump's MO. Ask the many contractors he's shafted and bankrupt throughout his career and ask the cities still waiting to receive payment from one of his rallies.

Trump deliberately and strategically jams-up the court system to get his way; he sues so he pays pennies on the dollars. He then moves on to the next chump that'll do his bidding with zero regard for the law, attacking any lawyer or law firm that gets in his way.

Every day with Donald Trump is an assault on a new enemy, real and imagined. He's weaponized the law, twisting it to cause maximum damage and carnage. Cruelty is the point. He is the modern day Hitler.

"Judges, lawyers, and the law were among the things Hitler most despised, and his regime was one long assault on the rationality, predictability, and integrity of the law."

Benjamin Carter Hett

"Never forget that everything Hitler did in Germany was legal."

Martin Luther King, Jr.

"A law that punishes the innocent is not a law at all, it is merely an instrument of oppression."

Clarence Darrow

Next, Kill all the Scientists

Literally! Over a dozen scientists have disappeared since 2024, many under unusual circumstances: missing persons, suicide, accidents, some natural causes. Almost all were connected to sensitive US nuclear or aerospace research.

A nuclear physicist and MIT professor was shot outside his home. A retired Air Force general and a government contractor are both missing from their homes in New Mexico. An aerospace engineer disappeared on a hike in LA. One scientist was found floating in a lake.

Individually, the deaths are questionable; collectively, they need to be investigated. I'm not saying Trump or his administration is directly responsible for their disappearances. I'm saying, with Trump's ties to Putin, Netanyahu, and Israeli soldiers, the likelihood they are operating on American soil is certain.

Especially now that the US House and Senate have passed the 2026 National Defense Authorization Act which merges our Military with Israel's.

Science—the search for truth—is under assault in Trump's America. Trump fired all 24 members of the National Science Board. The Board—first established in 1950!—and responsible for distributing over \$9 billion in grants annually. They were independent scientists and engineers.

In addition, over 95,000 scientists were purged from the federal government, due to DOGE cuts. The very people responsible for measuring the outcome of Trump's catastrophic policies. The people who gather evidence and record the data. The experts able to extrapolate and analyze complex data in order to provide solutions and keep the people safe.

“Trump 2.0 has deleted or altered nearly 400 US datasets, endangering public health, education and more.”

The Guardian

Trump is destroying data intentionally to avoid lawsuits. Decades of research have been deleted because facts can be used against him in a court of law. He's dismantling data gathering equipment, ie NOAA and the National Weather Service. No more weather balloons, ocean buoys, next-level satellites, hurricane tracking, and climate change monitoring. Why?!

Because NO equipment means NO data. No data means no proof. No proof means no lawsuits. No lawsuits mean no justice.

No Justice, No Peace; Know Justice; Know Peace

No one to hold him accountable, so his assault on science continues—as does his fight with the Media.

“Freedom of the press is the most important protection of a free society, because it ensures the law is always held to account.”

Justice William Brennan

Kill the Lawyers, Kill the Scientists, Silence the Media

From the moment he rode down that escalator in 2015, to a crowd of adoring paid actors, Trump has been abusing, blaming, and manipulating the Media, and the Media has been unable to contain him. Instead, they've embraced him and spun his lies into "truths" while placating his ego and encouraging his debauchery.

“Media play a powerful role in establishing and perpetuating social norms.”

Jackson Katz

And the Media has played a powerful role in perpetuating Trump. What did they get for their efforts? Sued.

Trump has weaponized the Media against itself. He's:

- Challenged their credibility, calling them fake news
- Dehumanized and attacked reporters
- Revoked press credentials for those that question him
- Flooded the zone with lies, lies, and more lies
- Used repetitive branding to enforce misinformation
- Bypassed traditional media sources by creating his own Truth Social

Trump has weaponized the Courts against the Media.

He sued the Des Moines Register and Ann Selzer, the pollster, for “election-interfering fiction” on a pre-election poll. The paper had reported the truth—Trump was behind in Iowa. “Harris 47%, Trump 44%.”

He's sued Jimmy Kimmel; had Stephen Colbert thrown off the air. He's sued The New York Times for \$15 billion, the BBC for \$10 billion; sued CNN for using the words “big lie.” He's installed ass-kissers at the top who own the networks, newspapers, and social platforms that distribute the news which are mostly Trump lies.

He begrudges anyone who gives him bad press. His spiteful, vengeful soul cut \$1.1 billion from the Public Broadcasting Service and National Public Radio.

“Ronald Grump” even defunded Sesame Street.

“Whoever controls the media controls the mind.”

Jim Morrison

Trump is the master of the news cycle. Fox is nothing more than his paid propaganda. He's recruited many of his cabinet from their ranks of bimbos and bros: Pete Kegsbreath, Jeanine Wino Pirro, Kaleigh Macaroni to name a few. Their commonality? Eagerness to spread Trump lies.

“If you're not careful, the newspapers will have you hating the people being oppressed and loving those doing the oppressing.”

Malcolm X

Trump pushes social norms and, unfortunately, common courtesies. Presidents are role models, they set the tone of the nation. It's a shame and moral crime that there is a generation of children who've been exposed to his “brand.” The Media has perpetuated, monetized, and profited from Trump's toxicity. People have responded by turning off the Media.

Even while many in the Media bow to Trump, tremble in his presence, there are those “old school” journalists, news anchors, and entertainment hosts holding the line: Lawrence O'Donnell, Rachael Maddow, Nicole Wallace, to name a few. Katie Phang is using the law to get access to the Epstein files. Hundreds of journalists, attorneys, professors, scientists, experts, and legislators have spoken up. And even as the big networks are being controlled by Trump's FCC, individual patriots have continued to resist.

“Don't hate the Media, become the Media.”

Jello Biafra

Social media has fundamentally altered our society. Trump's first term, Zuckerberg took Russian rubles and ran Trump ads through our newsfeeds. The Facebook algorithm was co-opted by Steve Bannon's propaganda, stories made up and targeted to a specific demographic. Lies and more lies. Zuck pleaded in Court and Congressional hearings that he and Facebook weren't responsible for his algorithm content. Both Congress and the Court determined he was and they are.

Trump's second term, we have Elon Musk and his X platform, purchased for \$40 billion to perpetuate Trump lies and help him win the election. Ironically, Musk also confessed to rigging the election for Trump in one of his posts. He said without his help, Trump wouldn't have won, and the Senate would have been won by the Democrats. One of Musk's exes has also posted Elon confessed to helping get Trump elected.

There is an upside to social media. Without it, we wouldn't know how aghast others are with Trump and Republicans. Social media is full of memes, videos, commentary, and conversation about how inept and corrupt Trump is. It's good to know more people hate and reject Trump than accept and normalize him.

He does NOT represent decent societal norms. He does NOT represent all Americans. He doesn't represent the majority of Americans. Trump represents an extremely small slice of bigotry and hatred that needs to be quieted and then exposed to kindness, decency, and the rule of law!

"The law is the embodiment of the moral sentiment of the people."

William Blackstone

"Law is the public conscience."

Thomas Hobbes

Voting Rights: Protect Your Voice; Protect Your Vote

"No right is more precious in a free country than that of having a voice in the election of those who make the laws under which, as good citizens, we must live. Other rights, even the most basic, are illusory if the right to vote is undermined."

Supreme Court's decision in *Wesberry v. Sanders*, 1964

Your vote is your voice. Your vote is the single most important action you can take to resist Trump's agenda and move our country in a better direction.

Candidates clearly declare their allegiance to a party and their ideology: Republican, Democrat, or Independent.

We expect our candidates to vote on issues that matter to us. And unless they are turncoats like Fetterman, Sinema, and Manchin, they vote with the people that elected them.

There is only one thing Trump wants right now—to stay in power! He will do everything he can to win the mid-term election, including bribing voters with \$5000 checks. An absurd premise since Trump doesn't have that authority, only Congress does. That would add over \$1 trillion to the current \$40 trillion deficit due to Trump's tax breaks to the rich and another very expensive WAR. And the DOGE checks and tariff checks he promised never arrived!

Who could possibly believe he was serious. But the consequence of losing the mid-term election will be so extreme, Trump will bribe, cheat, steal, and even deny citizens their right to vote.

"If your voice held no power, they wouldn't try to silence you."

Unknown

Trump and Republicans continue to push the SAVE Act. The name sounds good, but the Save Act would make it impossible for millions of women to vote because of strict documentation requirements.

A Driver's license or Real ID is not enough; a woman's legal married name must match her birth certificate. Any woman who took her husband's last name would need to *pay* for a passport or be denied her vote.

The SAVE Act also allows Trump access to everyone's voter information. Rumor has it Elon Musk's DOGE boys acquired our private information to share with non-secure, third-party voter-targeted campaigns.

Red State governors have already handed over their voter rolls.

Trump is doing everything he can to sway the vote, including suing states with mail-in ballots. Trump's own Supreme Court just told him NO, he cannot change mail-in requirements for this year's mid-terms, but Trump continues to cause voting chaos in the courts.

Approximately 625,000 American citizens work for the Postal Service; approximately 15% are Veterans. Those 600,000+ individuals make sure YOU get your mail—including your ballot.

But Postmaster General David Steiner has said the Postal Service *won't* deliver ballots unless that state shares their voter info with Trump.

We'll see if Trump and Steiner follow Court orders. But Trump really doesn't want those mail-in ballots coming in. That's how he lost to Joe Biden in 2020. He couldn't manipulate those numbers.

“Trump can’t win by addition, only through subtraction.”

Joy Reid

That's how toxic Republicans' policies are, and Trump and Republicans know it.

“The more people who vote, the worse the Republican Party does.”

Donald Trump

**“If the majority of Americans voted
we'd probably never have another Republican president.”**

Also Donald Trump

He knows. That's why he's demanded Red States be gerrymandered giving him more seats. He's shuttered the Election Assistance Commission, a bipartisan commission, that monitors elections. He's got Elon Muskrat working behind the scenes on the "vote-counting" computers.

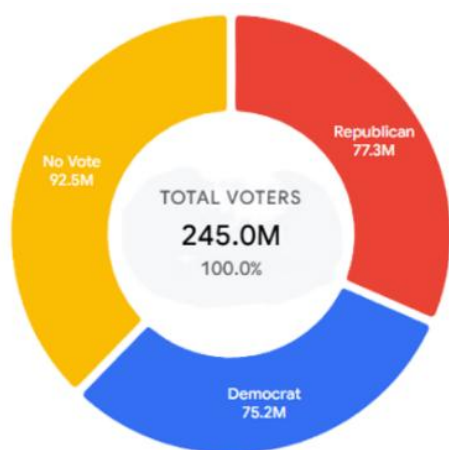

Exercise Your Constitutional Right to Vote

Eligibility to vote in the United States is granted through the United States Constitution and by state law. Several Constitutional amendments, 15th, 19th, and 26th, require that voting rights of U.S. citizens cannot be shortened or put aside on account of race, color, previous condition of servitude, sex, or age for those above 18.

The majority of Americans do NOT support Trump and his lawless agenda. He's got the lowest approval rate of any president, EVER, going into the mid-terms: 34% according to Pew Research.

There are nearly 245 million eligible voters. In the 2024 election, roughly 75 million voted Republican; 73 million voted Democrats.

Yes, Trump has hardcore followers but MANY who gave Trump the benefit of the doubt are hurting due to higher gas, food, housing, and healthcare costs, results of Trump's tariffs and war.

Our job is NOT to convince Trump voters to vote for Democrats—although many will after Trump's disastrous past two years. Our job is to reach the 92 MILLION that didn't vote in 2024, educate them on the difference between Republican and Democratic ideologies, and then get them to vote.

I believe more people will choose policies that include others, celebrate our differences, and enact laws for the good of us all.

“Laws are like bridges, and without them, society is divided.”

Winston Churchill

Constitutional Rights, Individual Rights, Legal Rights

The 2026 Midterm Elections are the most critical of our time. After 250 years, we are on the brink of losing our Democracy to Donald Trump. He is already wearing Trump

2028 merch; he fully intends to deny the Constitution and continue as president beyond 2029. Steve Bannon is already priming Trump's base and spinning the lie that he can.

The 2026 Midterms will have major consequences. Those who support Trump and Republicans are voting to amplify and accelerate the already disastrous path we're on—AI data centers, immigrant detention centers and for-profit prisons, denying and defying the rule of law and the court system, naked greed-driven capitalism, taking over other countries, stealing their resources, war, the destruction of the planet, civilians being intimidated, bullied, and imprisoned for peacefully protesting.

“The protection of individual rights is the very purpose of the law.”

Justice William Brennan

“Where there is no law there is no freedom.”

Liberty and Justice, and fairness and equality, are on the ballot this November. Hold Trump and the Republicans to the letter of the law and the spirit of the law:

All men and women are created equal.

“It is horrifying that we have to fight our own government to save the environment.”

But we do, and here we are. Mississippi’s 5th Court of Appeals just ruled you do NOT have a Constitutional right to clean water--or accurate information from public officials regarding it! They basically said, you got lead in your drinking water Jackson residents? And the city knew about it? File a “torte claim” or try “electing representatives that will better manage the water system,” and take it up with anyone that might give a crap. Constitution doesn’t cover it.

I suppose when the Constitution was written in 1787, our Founding Fathers didn’t take into consideration for-profit polluters and their effect on the citizens. They probably assumed future generations would be good stewards of the land understanding *we have to live on it and with it*. How could they know our current generation of immoral, unaccountable, and unregulated capitalists would put profits over people?

“Someone needs to explain to me why wanting clean drinking water makes you an activist, and why proposing to destroy water with chemical warfare doesn’t make a corporation a terrorist.”

Environmental Rights

Your right to a clean, healthy, and sustainable environment, and to participate in environmental decision-making doesn’t exist under Trump’s administration. He’s destroyed almost all government agencies created to protect the people; he’s fired the people you’d complain to.

I am Mother Nature; and I am in danger.

WE are in danger. When I say “we,” I mean you, me, we, all the people, animals, and living things on the planet! We are under assault from Trump, Billionaires, Capitalists, Politicians, local government agencies, and companies that vote to support their lawless harmful policies.

There is no Planet B! As much as ketamine-junkie Elon Musk fantasizes about the Moon and Mars, we’ve got ONE habitable planet. *Earth!*

“Earth, it’s what we all have in common.”

Wendell Berry, RIP

The decisions, policies and actions being taken have dire consequences for Earth and all people globally. Millions and millions of people are displaced due to war. Israel is starving Palestine; The United States is starving Cuba as well as its own citizens.

The only two countries to vote NO to *Food as a Right* at the United Nations General Assembly: the United States and Israel. Two countries actively working to starve the population to take the land. You know Donald Trump, a self-professed builder. The first thing he does is tear it all down. Burn it to the ground. He cares not for the current occupants, creatures great or small.

Our land, water, air, and resources are being decimated by Trump and his administration. They’ve reversed more than 100 environmental regulations in these sectors:

- Air pollution emissions
- Drilling and extraction
- Infrastructure and planning
- Animal Protections
- Water pollution
- Toxic substances and safety

Trump’s Department of Homeland Security waived 31 federal laws and regulations *so he could bulldoze Big Bend National Park* in South Texas along the border. Only 1% of border crossings occur on that stretch of land, but rules and court orders be damned!

Here's who Trump has ignored or flat-out defied:

1. Clean Air Act
2. Endangered Species Act
3. National Fish and Wildlife Act
4. Safe Drinking Water Act
5. Wilderness Act
6. Federal Water Pollution Control Act
7. Federal Land Policy and Management Act
8. Eagle Protection Act
9. Farmland Protection Policy Act
10. Archaeological Historic Preservation Act
11. Energy Independence and Security Act
12. Archaeological and Historic Preservation Act
13. National Park Service General Authorities Act
14. Archaeological Resources Protection Act
15. National Trails System Act
16. Solid Waste Disposal Act
17. Migratory Bird Conservation Act
18. Fish and Wildlife Coordination Act
19. Historic Sites, Buildings, Antiquities Act
20. Federal Cave Resources Protection Act
21. Migratory Bird Treaty Act
22. National Environmental Policy Act
23. National Park Service Organic Act
24. Noise Control Act
25. Paleontological Resources Protection Act
26. Wild and Scenic Rivers Act
27. Antiquities Act
28. Wild Horse and Burro Act
29. Administrative Procedure Act
30. Native American Graves Protection and Repatriation Act
31. Comprehensive Environmental Response, Compensation, and Liability Act

All our National Parks are under assault.

Wilderness Under Assault! The Roadless Rule

Trump is working to rescind the **2001 Roadless Area Conservation Rule**, landmark legislation put in place by Clinton's Forest Service *protecting over 58 million acres of pristine wilderness*. If Trump gets his way, millions of acres will be open to "development": mining, drilling, fracking, and logging.

These rules, regulations, and agencies exist for a reason!

To keep greedy, gropy evil dictators and capitalists from taking what they want. Trump is currently pressuring the Parks Department, on behalf of a big donor, to cut a private road through Yosemite National Park. He's also working to give Elon Musk over 750 acres of protected land in the Lower Rio Grand Valley National Refuge in Texas.

No land is sacred, no deal too deadly for Trump.

On April of this year, our spineless-gutless-heartless Republican congressmen voted to poison us all! Tell me, what good comes from selling **THE BOUNDARY WATERS OF MINNESOTA** to a Chilean copper-mining company?

Their track record of poisoning the waters around them is 100% certain. Millions of Americans will be affected; Canadians will be affected. You cannot dump toxic chemicals into the waterways without them ending up in our drinking water—because we are all connected!! What happens to one of us or some of us will eventually happen to all of us.

The lack of understanding and common sense is astounding. But still Trump and his people continue the destruction and killing:

- ✓ National Parks across the nation being sold and stripped
- ✓ **Bears** in Alaska hunted from helicopters
- ✓ **Mustangs** rounded up and sold for \$25/head (for meat!)
- ✓ **Bison** evicted and starved
- ✓ Slaughtering 450,000 **barred owls**
- ✓ Glyphosates dumped around Lake Tahoe
- ✓ Cyanide bombs dropped on Utah
- ✓ Oil companies drilling the Gulf of Mexico and western shoreline
- ✓ Prime fishing and sacred areas desecrated around the Hawaiian Islands
- ✓ Too many more to list

I thank the people who are fighting back! Minnesota Governor Tim Walz has

signed an executive order to halt that copper mine, and there are millions more of you resisting and pushing back!

EarthJustice: because the Earth needs a good lawyer (earthjustice.org)

EarthJustice is a team of lawyers and environmentalists who've been fighting Trump in court. This non-profit has numerous active lawsuits as they seek to stop the killing of the planet, the humans, wildlife, and vegetation. *With success!*

From an April 2026 article on their website:

"Federal Court Strikes Down President Trump's Attacks Against Endangered Species Act, Restores Bedrock Environmental Law to Pre-Trump Status"

EarthJustice has also won in California courts reversing Trump's efforts to overturn the ESA, Environmental Species Act. They've protected wetlands in Florida from Trump's assault on the Clean Water Act. They've filed lawsuits in Hawaii and won protections for whales, sea turtles and 73 million acres of ocean.

EarthJustice is currently suing Trump's "God Squad," egregious, immoral, heartless Republicans hellbent on stripping all regulations and protections against animals and the environment. On behalf of people everywhere, thank you EarthJustice.

Do NOT get discouraged; get determined and focused. Peacefully protest and resist Trump's agenda. Please give EarthJustice and other organizations your support.

"We are all children of one great Mother, Nature."

Charles Dickens

Mother Nature; Human Nature

How is it that the worst of us are wreaking havoc and destroying the lives of the rest of us? Hatred and intolerance are running this country and the world.

Is that human nature?

Wiki says: Human nature comprises the fundamental dispositions and characteristics that humans are said to have naturally, including: ways of thinking, feeling, and acting.

Google says: “Human nature is the set of shared traits, feelings, and behaviors that connect all people.”

And there’s the magic word—connect!

We are all connected, by our thoughts, feelings, and actions. Many of us are connected by our beliefs. We might not worship at the same church, temple, or synagogue, but even the major religions of the world agree on basic principles: they worship a higher deity, believe in an afterlife, follow the golden rule, show respect to others and the community, choose charity and kindness, and preach love and compassion. That’s what we all have in common.

Human nature itself is neither good nor bad; each of us possesses the ability to do great good or pure evil (to simplify it). It’s a spectrum; a dichotomy. But the natural order of the Universe is for balance and harmony. You see animals in their natural habitat eating others to survive, but you don’t see them eating each other to hoard wealth and power.

It takes but a single man, tapping into the absolute worst traits in himself and others, to destroy that connectedness of basic human nature. Trump has not only disconnected himself from others and moved outside basic natural order, he believes HE is the higher power.

You have the 1st amendment right to freedom of religion; you can believe Trump is a God if you want. You can believe we all burn in hell if we displease God. You also have freedom *from* religion—you do *not* have to believe in God or heaven or hell. Our Founding Fathers purposely separated religion from government for that reason.

“The most important decision we make is whether we believe we live in a friendly or hostile universe.”

Albert Einstein

Philosophers have debated for centuries whether man is more prone to compassion and peace or selfishness and greed. But the moment a man puts himself above another, they’ve already disconnected from human nature. Human Nature is about balance. When people respect the boundaries of others, we can have peace. Not just peace locally, in the United States, but around the world.

Food and housing can be available to all! Wind and solar power offer limitless opportunities to harness the world’s natural powers. We have the capability, if only we had the leadership.

“Nature shows us how to live, love, and grow alongside each other.”

Angie Weiland-Crosby

The leaders we have now are set on destruction, and not just the rule of law, but the rules of nature—and nature itself! Both Republicans and a few Democrats have

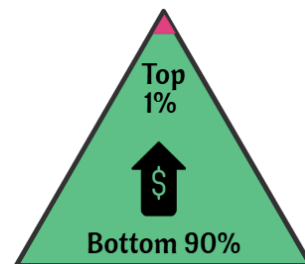

enabled and empowered him. The courts, so far, have not been able to stop him. Trump simply ignores court orders and does what he wants—including poisoning the people!!

We are at the mercy of a madman whose nature is to destroy and withhold. He's notorious for bankrupting his companies, he's stiffed almost every vendor who's worked for him, he steals from his own companies and charities, he's taught his kids the grift (Jr and Eric are cashing in on crypto, betting/futures, and drone markets; Barron is playing the oil market on his Dad's whims making millions on trades placed just before big Trump announcements; and Vanky is pretending she discovered an island.)

Trump's economy works for the rich. His policies have given tax cuts to the wealthiest 10% while rolling back regulation on worker pay and safety. He's not in favor of raising the minimum wage. Still a mere \$7.25.

The top 1% have the wealth of the bottom 90% combined. Our legislators make close to \$200,000/year and get rich from the stock market and self-dealing. Trickle-down economics, established under Reagan in the 1980s, doesn't trickle to the bottom.

I admit I'm puzzled. The Cult of Trump is real. They accuse "non-believers" as the ones with derangement syndrome. Clearly, they've gone mad with worship of him. They must look through a different mirror than mine. Or most of the people on the planet.

Nate White, an English writer, answered the question, "Why do some British people dislike Donald Trump?" Here was his response:

A few things spring to mind. Trump lacks certain qualities which the British traditionally esteem. For instance, he has no class, no charm, no coolness, no credibility, no compassion, no wit, no warmth, no wisdom, no subtlety, no sensitivity, no self-awareness, no humility, no honour and no grace – all qualities, funnily enough, with which his predecessor Mr. Obama was generously blessed.

So for us, the stark contrast does rather throw Trump's limitations into embarrassingly sharp relief.

Plus, we like a laugh. And while Trump may be laughable, he has never once said anything wry, witty or even faintly amusing – not once, ever.

I don't say that rhetorically, I mean it quite literally: not once, not ever. And that fact is particularly disturbing to the British sensibility – for us, to lack humour is almost inhuman.

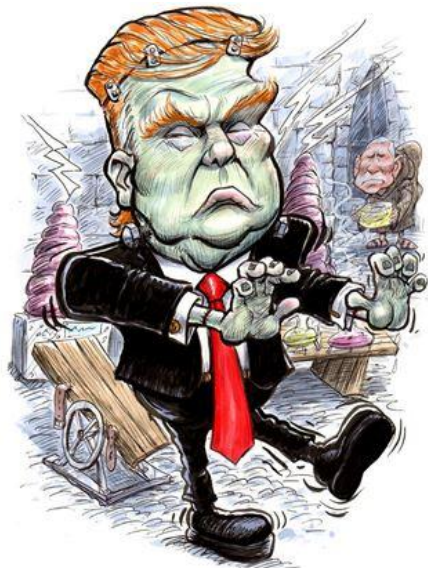

But with Trump, it's a fact. He doesn't even seem to understand what a joke is – his idea of a joke is a crass comment, an illiterate insult, a casual act of cruelty. Trump is a troll. And like all trolls, he is never funny and he never laughs; he only crows or jeers.

And scarily, he doesn't just talk in crude, witless insults – he actually thinks in them. His mind is a simple bot-like algorithm of petty prejudices and knee-jerk nastiness. There is never any under-layer of irony, complexity, nuance or depth. It's all surface.

Some Americans might see this as refreshingly upfront. Well, we don't. We see it as having no inner world, no soul. And in Britain we traditionally side with David, not Goliath. All our heroes are plucky underdogs: Robin Hood, Dick Whittington, Oliver Twist. Trump is neither plucky, nor an underdog. He is the exact opposite of that. He's not even a spoiled rich-boy, or a greedy fat-cat. He's more a fat white slug. A Jabba the Hutt of privilege.

And worse, he is that most unforgivable of all things to the British: a bully. That is, except when he is among bullies; then he suddenly transforms into a sniveling sidekick instead.

There are unspoken rules to this stuff – the Queensberry rules of basic decency – and he breaks them all. He punches downwards – which a gentleman should, would, could never do – and every blow he aims is below the belt. He particularly likes to kick the vulnerable or voiceless or female – and he kicks them when they are down. So the fact that a significant minority – perhaps a third – of

Americans look at what he does, listen to what he says, and then think 'Yeah, he seems like my kind of guy' is a matter of some confusion and no little distress to British people, given that:

- Americans are supposed to be nicer than us, and most are
- You don't need a particularly keen eye for detail to spot a few flaws in the man

This last point is what especially confuses and dismays British people, and many other people too; his faults seem pretty bloody hard to miss. After all, it's impossible to read a single tweet, or hear him speak a sentence or two, without staring deep into the abyss. He turns being artless into an art form; he is a Picasso of pettiness; a Shakespeare of shit. His faults are fractal: even his flaws have flaws, and so on ad infinitum.

God knows there have always been stupid people in the world, and plenty of nasty people too. But rarely has stupidity been so nasty, or nastiness so stupid. He makes Nixon look trustworthy and George W look smart. In fact, if Frankenstein decided to make a monster assembled entirely from human flaws – he would make a Trump.

Thank you, Nate. Didn't mean to infringe upon your copyright, it's just—truer words were never penned.

The nature of Trump is to destroy, to plunder, to disregard property and people, to wage war.

“Man must put an end to war before war puts an end to mankind.”

John F Kennedy

So, how do we stop the war? We stop Trump by voting for Democrats and defeating Republicans and Trump at the ballot box in November. That's how we stop the war.

“Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it's the only thing that ever has.”

The Overview Effect

Welcome back to Earth, Artemis 2.

“What I have seen has brought me hope and more joy for our future,” said Jeremy Hansen, Artemis 2 Mission Specialist, first Canadian in space, Colonel in the Royal Canadian Air Force. “We are a reflection of each other.”

If you have not seen clips of the Artemis 2 mission, I suggest you Google it and hear the words of the four astronauts who survived a 10-day mission around the moon, completed in April 2026.

Trump's response? He posted a picture of Trump Towers on the Moon. He deleted the tweet and the press ignored it—per usual. It's sick, perverse, obscene to think of Trump towers on the Moon. He'd brand his own face on the Moon if he could.

Upon seeing the Earth, so far away, and floating in a vastness, endless space, the crew was united in their interpretation of the experience. The hope and joy they speak of is the key to the survival of Earth. Away from the warmongering and rhetoric, their mission became clear: share their experiences; save humanity and the planet.

If only we could impart that knowledge to Trump, oligarchs, big business, Republicans, Democrats that vote like Republicans, and all the state governors (AND WORLD LEADERS) who are implementing Trump's agenda. The Artemis 2 crew witnessed the connectedness of us all.

We belong to the Earth and we belong to each other.

Making the world a better place is an inside-out job. It starts with each of us. We must be the best version of ourselves we can be. That means heart, mind, body, and spirit. When we take care of ourselves, we can take care of others. We save ourselves by saving others.

You: "The world is such a cold dark place and there is nothing I can do."

God: "Just build a better you."

Build a better you. Easier said than done. It is a challenge to remain optimistic, especially when doom scrolling has become a national pastime. Every day there is a new Trump atrocity. He just cut down 65 cherry trees in Washington, DC claiming improvements on the historic East Potomac Golf Links which had been there over a century.

So what's the big deal? There was no planning, no approval, just destruction. Trees gifted the United States by Japan in 1912. Millions of tax-payer dollars for another Trump vanity project forced upon the Earth. Just like the rose garden; no thought to the people they represent and honor. Just gone.

Many people despair on the injustice of Trump's dealings. We Ladies, Liberty and Justice, and I, have barely scratched the surface of Trump's corruption. He has poisoned every branch of government and put his own unique orange stink on laws that affect us all.

But if we can envision and embrace a brighter future, then we can affect change: we walk, talk, spend, and support candidates according to our morals of supporting others. We put our money where our mouth is. The only thing corporations understand is money, so we spend it with or deny it from the businesses that support Trump and Republicans.

And we return to our roots—and our rights!

“Look deep into nature and you will understand everything better.”

Albert Einstein

Inalienable Rights: natural, inherent rights that cannot be denied by human laws

You have the right to exist. Trump, Putin, and Netanyahu can deny it, declare war, and act upon it. But they are breaking civil, natural, and Universal law.

There was a time, before Putin, Trump, and Netanyahu when the world was at peace (relatively). International organizations and alliances, working together to make it a better world. NATO. The Paris Climate Agreement. Remember that hopeful, helpful alliance? The one Trump belittled and withdrew from his first term. Before DOGE gutted USAID and the people that depended on it?

What if we return to basics: protecting the land and waters, cultivating and harvesting the food sources here, sharing and educating our neighbors; helping others live their best lives while living ours? How about minding our own god-damned business?! What if we choose harmony?

We don't need a zombie apocalypse to envision and move toward a better world, right now. We just need Donald Trump out of the White House. Then we can move forward, together. Maybe not united on every detail, but at least not KILLING each other, or arresting each other and imprisoning those that don't conform. It is our right to move forward **together**.

Collective Rights: your right to work with your neighbors for betterment of all

I am not the enemy. Lady Liberty and Lady Justice are not the enemy. **We are not each other's enemies**. Peace is our birthright. It's obtainable and within human nature. It is our right to come together and demand it.

Nine out of ten Americans say political division is harming us and they want to find common ground.

Donald Trump has always been a divider because he is a terrible businessman, leader, and human being. He has no compassion for others; he doesn't understand common ground. He understands me, me, me versus everyone else and US vs THEM. That's his vision. He sees most people as inferior.

How can we get to common ground? We elect better leaders: those that work for ALL Americans and ALL citizens of the world. Those with a better vision for humanity. Those that believe in working together.

The majority of Americans want consensus and peace, according to an article in USA Today, "Hidden Common Ground":

83% of Americans say divisiveness and gridlock in politics are a big problem!!

- 83% Republicans
- 87% Democrats
- 86% Independents
- 68% No party affiliation specified

A kinder, gentler nation is what we want. Climate change, evolving weather patterns, and natural destruction are causing tremendous need for water, food, and shelter worldwide. Why do 10 million people a year starve to death on this planet?! It needn't be!

My friends, many of our brothers and sisters have lost their way; we as a society have lost our way. It is within our capability to solve these problems (thirst, hunger, resources, and territories); it is within our nature to solve them. To connect us all.

We are more alike than not. But what will it take? How does it start?

With small deeds.

"There are no great deeds, there are only small deeds done with great love."

Mother Theresa

Back to human nature. A lesson from Gandalf the Gray about power and evil from the Hobbit and Middle-earth:

"Saruman believes that it is only great power that can hold evil in check. But that is not what I have found. I found it is the small things, everyday deeds of ordinary folk that keep the darkness at bay. Simple acts of kindness and love. Why Bilbo Baggins? Perhaps because I am afraid, and he gives me courage."

Gandalf the Gray, The Hobbit: An Unexpected Journey, J.R.R. Tolkien

Kindness, Love, and Courage!

Kindness, love, and courage are human nature. We have within each of us those thoughts and feelings that connect us to our own humanity and to each other.

We also have the ability to separate from others, disassociate from their suffering, and invoke great pain. The Russians against Ukrainians; Israelis against Palestinians, Lebanese, all surrounding nations; Americans against Iran, Venezuela, Canada, Greenland. The leadership is demanding it and the citizens are following orders: hunting, holding, raping, torturing, murdering, deporting people in the countries right next door *because some asshole says to do it*.

Plundering what doesn't belong to them, with no morality, and tons upon tons of money, helping them do it, taking what they want, without remorse. Musk did say, "Empathy is a weakness." Our war pig leaders: Trump, Putin, Netanyahu have none towards others.

But lack of empathy is their weakness and **our superpower**; compassion is our motivator. And our goal? **Peace, Love, Unity, Respect.**

Courage is what it'll take from all of us. Courage to say we want a better America and a better world than the one Donald Trump envisions.

It'll take all of us! By Universal design and the laws of nature, two heads are better than one, and millions of minds are better than one. That's another Trump weakness. He thinks he "alone can fix it." He lacks the basic understanding of working together with others.

"None of us is as smart as all of us."

Telegraph, Telephone, Tell A Woman—VOTE!

Calling all Momma Bears. Our children are in danger.

"To damage the Earth is to damage your children."

Wendell Berry

Women, we have the power to determine election results because more women than men VOTE!

White women are credited for putting Trump in office. A stat I'll never understand. He's done major damage to women's rights, rolling back protections and denying access to abortion.

So a couple questions for the ladies: are we going to have control of our own bodies or not? Are we going to allow the top 1% to continue to drain our water supplies, shove AI down our throats, manipulate the market, tell us out-and-out lies, poison our lands, wage war, and kidnap and rape our children?

Women, sisters, I'm calling on you, whatever your shape, size, color, flavor, sexual orientation, religious belief, or IQ: Now is the time for all good women to come to the aid of their country. If not for the men, for the men we will raise—and especially for our daughters.

It will take our youngest generation of voters to join with our oldest generation of voters to remove Trump from the White House. It'll take decades to reverse the damage he's done. But do not despair. In the words of my darling daughter, Greta:

"Once we start to act, hope is everywhere. So instead of looking for hope, look for action. Then, and only then, hope will come."

Greta Thunberg

Voting is the most powerful, hopeful action you can take!

Peaceful Protest and the Formula for Change: the 3.5% Rule!

A study by Erica Chenoweth, Political Scientist at Harvard University states: civil disobedience is not only a moral choice; it is also the most powerful and effective way of shaping world politics. Erica Chenoweth and Maria Stephan reported in their book, *Why Civil Resistance Works*:

"Non-violent protests are twice as likely to succeed as armed conflicts—and those engaging a threshold of 3.5% of the population have never failed to bring about change."

This is the reason why we vote! Voting is the non-violent solution!! Differences in philosophies can be discussed, negotiated, and implemented—without violence.

No campaign failed after mobilizing approximately 3.5% of the population. That means **we have what it takes to WIN THIS ELECTION and change the world!!**

VOTING IS THE SOLUTION!

So, let's do the Math!

Here in the United States, we have about 331 million people; 245 million are eligible to vote.

245 million eligible voters
X .035
8,575,000 million voters

IF WE CAN GET 8,575,000 voters to DO SOMETHING DIFFERENT in this upcoming election, we win: the Democrats take back the House and the Senate.

But more voters are needed! We must account for the Trump/Musk/Gerrymander effect and vote in numbers too big to rig.

Then—**using the Constitution as our guide and Law as the tool**—we stop Trump’s authoritarian agenda.

That means reaching those that:

- didn’t vote in 2024 (92 million)
- voted for a 3rd party candidate in 2024
- disgruntled Trump voters who’ll now vote with Democrats
- disgusted Trump voters who’ll not vote at all

We need more people to the polls or requesting mail-in ballots; that goal is completely achievable! Come November, we can change Trump’s harmful, hurtful policies and begin to focus on healing the people and the planet.

We are meant to co-exist. With a healthy planet and respectful politics, we can feed the people, stop disease, and thrive.

“Be the change you seek.”

Gandhi/Obama mashup

Change begins with you!

Check your voter registration, research the issues, the candidates, and make a plan to vote.

Don’t wait, take action now: call or write your congressmen/women, join and support a campaign. Talk with your friends and family.

Speak with your wallet. Only make campaign donations to people who support people. Only shop the companies that donate to candidates and causes you believe in.

As my dear friend, Smokey Bear, says, **“Resist.”**

Resist those that would attack you for being different. Resist injustices inflicted on your neighbors. Resist hardening your heart even while standing your ground. We can disagree without being disagreeable!

The Constitution of the United States

(Simplified)

The Constitution explains how our government works, limits its power, and protects people's freedom.

The Preamble (The Big Idea)

"We the People" made this government to:

- Work better together
- Be fair
- Keep peace at home
- Protect the country
- Help everyone do well
- Protect freedom now and in the future

Article 1 — Legislative Branch (Makes the Law)

- Legislature/Congress has two parts: the House and the Senate
- Write and vote on laws
- Decide taxes, spending, and war
- Check the President so no one gets too powerful

Article 2 — Executive Branch—the White House/President (Enforces the Law)

- Runs the government day to day
- Commander in Chief of the Military
- Sign laws, veto laws
- Chooses department leadership w/Congress's approval

The Constitution Continues...

Article 3 — Judicial Branch (Interprets the Law)

- Interprets laws, evaluates fairness
- The Supreme Court is the highest court
- Assure everyone follows the Constitution

Article 4 — The States

- States must respect each other's laws and court decisions
- New states can join the country
- The national government promises to protect each state

Article 5 — Changing the Constitution

- The Constitution can be changed, but it's hard on purpose
- Big changes need lots of agreement

Article 6 — The Constitution Is the Top Rule

- The Constitution is the highest law in the country
- Everyone in government must follow it

Article 7 — Agreement

- The Constitution became official after enough states agreed to it

The Bill of Rights

(Simplified)

The Bill of Rights protects people's freedoms ***and keeps the government from being too powerful***. It includes the first ten Amendments to the Constitution passed in 1791.

Amendment 1 — Freedom

You can practice your religion (or not), speak your ideas, write them, meet with others peacefully, and ask the government to fix problems

Amendment 2 — Protection

People are allowed to have weapons, connected to protecting a free country

Amendment 3 — No Soldiers in Homes

Soldiers cannot live in your house without your permission

Amendment 4 — Privacy

The government can't search you or your home or take your things without a good reason and a warrant

Amendment 5 — Fair Treatment

You don't have to say things that could get you in trouble. You must be treated fairly by the law. The government can't take your property without paying you

Amendment 6 — Fair Trial

If you're accused of a crime, you get a fast, fair, public trial, a jury, and a lawyer

Amendment 7 — Jury in Big Lawsuits

In serious disagreements over money, you can have a jury decide

Amendment 8 — No Cruel Punishment

Punishments and fines must be fair—not cruel or extreme

Amendment 9 — More Rights Exist

Just because some rights are listed doesn't mean people don't have other rights too

Amendment 10 — Power Limits

Any power not given to the national government belongs to the states or the people
